A Companion to Women in

the Ancient World Oct 04 2020 Selected by Choice as a 2012 Outstanding Academic Title Awarded a 2012 PROSE Honorable Mention as a Single Volume Reference/Humanities & Social Sciences A Companion to Women in the Ancient World presents an interdisciplinary, methodologically-based collection of newly-commissioned essays from prominent scholars on the study of women in the ancient world. The first interdisciplinary, methodologically-based collection of readings to address the study of women in the ancient world Explores a broad range of topics relating to women in antiquity, including: Mother-Goddess Theory; Women in Homer, Pre-Roman Italy, the Near East; Women and the Family, the State, and Religion; Dress and Adornment; Female Patronage; Hellenistic Queens; Imperial Women; Women in Late Antiquity; Early Women Saints; and many more Thematically arranged to emphasize the importance of historical themes of continuity, development, and innovation Reconsiders much of the well-known evidence and preconceived notions relating to women in antiquity Includes contributions from many of the most prominent scholars associated with the study of women in antiquity

The History of the Ancient

World: From the Earliest Accounts to the Fall of Rome Dec 30 2022 A lively and engaging narrative history showing the common threads in the cultures that gave birth to our own. This is the first volume in a bold new series that tells the stories of all peoples, connecting historical events from Europe to the Middle East to the far coast of China, while still giving weight to the characteristics of each country. Susan Wise Bauer provides both sweeping scope and vivid attention to the individual lives that give flesh to abstract assertions about human history. Dozens of maps provide a clear geography of great events, while timelines give the reader an ongoing sense of the passage of years and cultural interconnection. This old-fashioned narrative history employs the methods of "history from beneath"—literature, epic traditions, private letters and accounts—to connect kings and leaders with the lives of those they ruled. The result is an engrossing tapestry of human behavior from which we may draw conclusions about the direction of world events and the causes behind them.

The Ancient World May 11 2021 This sweeping work covers world cultures from prehistory through the year 700 C.E. With in-depth analysis of civilizations, key figures,

cities, cultures and daily life. Its three volumes stretch beyond the boundaries of the ancient world of Greece, Rome and Egypt, to include Egypt, China, the Near East, Europe, Africa, the Americas and more, to provide true world coverage. The set begins with 26 overview essays, from Agriculture to Writing Systems, followed by 1,100 alphabetically arranged essays on persons, cultures, wars, battles, documents or works, traditions or cultural phenomena, structures or artifacts, places or sites, terms, and groups or civilizations. Next, over 200 entries provide in-depth overviews of historic civilizations, times and places. Lastly, the set provides detailed descriptions of "life as" an individual living in a given time and place. Coverage is broad in scope, yet easy to use, with guides for pronunciation, geography, word usage, and timelines included. Additional appendices include a Categorized List of Contents, Timeline, Geographical Guide to Ancient World, Glossary, Websites, and Bibliography, as well as a Name Index and a comprehensive Subject Index. Not only does the set provide encyclopedic coverage of the Ancient World and its civilizations, but it goes on to offer students and researchers new insight into what it meant to live in a specific time and place. No other reference tool provides this unique combination of material. -- Amazon.com.

Collectors, Scholars, and Forgers in the Ancient World Mar 28 2020 This

volume focuses on how ancient Greek and Roman fascination with works of art, texts, and antiquarian objects gave rise to the production of copies and forgeries. Drawing on a range of examples and up-to-date scholarship on forgery it offers insight into what the ancients found valuable and how they understood their past and the evidence for it.

The Mediterranean in the Ancient World Mar 09 2021 This general reader's history of the ancient mediterranean combines a thorough grasp of the scholarship of the day with an great historian's gift for imaginative reconstruction and inspired analogy. Extensive notes allow the reader to appreciate the state of scholarship at the time of writing, the scale and breadth of Braudel's learning and the points where orthodoxy has changed, sometimes vindicating Braudel, sometimes proving him wrong. Above all the book offers us the chance to situate Braudel's mediterranean, born of a lifetime's love and knowledge, more clearly in the climates of the sea's history.

A History of the Ancient World Nov 16 2021

Food in the Ancient World from A to Z Jan 07 2021 Sensual yet pre-eminently functional, food is of intrinsic interest to us all. This exciting new work by a leading authority explores food and related concepts in the Greek and Roman worlds. In entries ranging from a few lines to a couple of pages, Andrew Dalby describes individual foodstuffs (such as catfish, gazelle,

peaches and parsley), utensils, ancient writers on food, and a vast range of other topics, drawn from classical literature, history and archaeology, as well as looking at the approaches of modern scholars. Approachable, reliable and fun, this A-to-Z explains and clarifies a subject that crops up in numerous classical sources, from plays to histories and beyond. It also gives references to useful primary and secondary reading. It will be an invaluable companion for students, academics and gastronomes alike.

Literacy and Power in the Ancient World Apr 09 2021

This collection attempts to set the study of literacy in the ancient world in the wider contexts of the debates among anthropologists over the impact of writing on society.

An Introduction to the Ancient World May 03 2023

Integrating the results of scholarly work from the past decade, the authors of *An Introduction to the Ancient World*, Lukas de Blois and R.J. van der Spek, have fully-updated and revised all sixteen chapters of this best-selling introductory textbook. Covering the history and culture of the ancient Near East, Greece and Rome within the framework of a short narrative history of events, this book offers an easily readable, integrated overview for students of history, classics, archaeology and philosophy, whether at college, at undergraduate level or among the wider reading public. This revised second edition offers a

new section on early Christianity and more specific information on the religions, economies, and societies of the ancient Near East. There is extended coverage of Greek, Macedonian and Near Eastern history of the fourth to second centuries BC and the history of the Late Roman Republic. The consequences of Julius Caesar's violent death are covered in more detail, as are the history and society of Imperial Rome. This new edition is: comprehensive: covers 3,000 years of ancient history and provides the basis for a typical one-semester course lavishly illustrated: contains maps, line drawings and plates to support and supplement the text, with updated captions clearly and concisely written: two established and respected university teachers with thirty years' experience in the subject areas well-organized: traces the broad outline of political history but also concentrates on particular topics user-friendly: includes chapter menus, an extensive and expanded bibliography organized by subject area and three appendices, an improved introduction and the addition of an epilogue.

Cosmos in the Ancient

World Aug 26 2022 Traces the concept of kosmos as order, arrangement, and ornament in ancient philosophy, literature, and aesthetics.

1177 B.C. Nov 04 2020 A bold reassessment of what caused the Late Bronze Age collapse In 1177 B.C., marauding groups known only as the "Sea Peoples" invaded Egypt. The

pharaoh's army and navy managed to defeat them, but the victory so weakened Egypt that it soon slid into decline, as did most of the surrounding civilizations. After centuries of brilliance, the civilized world of the Bronze Age came to an abrupt and cataclysmic end. Kingdoms fell like dominoes over the course of just a few decades. No more Minoans or Mycenaeans. No more Trojans, Hittites, or Babylonians. The thriving economy and cultures of the late second millennium B.C., which had stretched from Greece to Egypt and Mesopotamia, suddenly ceased to exist, along with writing systems, technology, and monumental architecture. But the Sea Peoples alone could not have caused such widespread breakdown. How did it happen? In this major new account of the causes of this "First Dark Ages," Eric Cline tells the gripping story of how the end was brought about by multiple interconnected failures, ranging from invasion and revolt to earthquakes, drought, and the cutting of international trade routes. Bringing to life the vibrant multicultural world of these great civilizations, he draws a sweeping panorama of the empires and globalized peoples of the Late Bronze Age and shows that it was their very interdependence that hastened their dramatic collapse and ushered in a dark age that lasted centuries. A compelling combination of narrative and the latest scholarship, 1177 B.C. sheds new light on the complex ties that gave rise to, and ultimately destroyed, the

flourishing civilizations of the Late Bronze Age—and that set the stage for the emergence of classical Greece.

The Ancient World in the Cinema Dec 06 2020 This entertaining and useful book provides a comprehensive survey of films about the ancient world, from *The Last Days of Pompeii* to *Gladiator*. Jon Solomon catalogues, describes, and evaluates films set in ancient Greece and Rome, films about Greek and Roman history and mythology, films of the Old and New Testaments, films set in ancient Egypt, Babylon, and Persia, films of ancient tragedies, comic films set in the ancient world, and more. The book has been updated to include feature films and made-for-television movies produced in the past two decades. More than two hundred photographs illustrate both the films themselves and the ancient sources from which their imagery derives.

Forgotten Peoples of the Ancient World Feb 05 2021 The ancient world saw the birth and collapse of great civilizations. In mainstream history the Classical world is dominated by Greece and Rome, and the Biblical world is centred on the Hebrews. Yet the roughly four-and-a-half thousand years (4000 bcad 550) covered in this book saw many peoples come and go within the brawling, multi-cultural mass of humanity that occupied the ancient Middle East, Mediterranean and beyond. While a handful of ancient cultures have garnered much of the credit, these forgotten peoples also helped

to lay the foundations of our modern world. This guide brings these lost peoples out of the shadows to highlight their influence and achievements. Forty-five entries span the birth of civilization in Mesopotamia to the fall of the Roman Empire in the West, offering an alternative history focusing on the names we aren't familiar with, from the Hurrians to the Hittites, as well as the peoples whose names we know, such as the Philistines and the Vandals, but whose real significance has been obscured. Each entry charts the rise and fall of a lost people, and how their culture echoes through history into the present. Important ancient artefacts are illustrated throughout and fifty specially drawn maps help orientate the reader within this tumultuous period of history. Philip Matyszak brings to life the rich diversity of the peoples founding cities, inventing alphabets and battling each other in the ancient world, and explores how and why they came to be forgotten.

Globalizations and the Ancient World Sep 26 2022 In this book, Justin Jennings argues that globalization is not just a phenomenon limited to modern times. Instead he contends that the globalization of today is just the latest in a series of globalizing movements in human history. Using the Uruk, Mississippian, and Wari civilizations as case studies, Jennings examines how the growth of the world's first great cities radically transformed their respective areas. The cities required

unprecedented exchange networks, creating long-distance flows of ideas, people, and goods. These flows created cascades of interregional interaction that eroded local behavioral norms and social structures. New, hybrid cultures emerged within these globalized regions. Although these networks did not span the whole globe, people in these areas developed globalized cultures as they interacted with one another. Jennings explores how understanding globalization as a recurring event can help in the understanding of both the past and the present.

Papyrus Jan 19 2022 A rich exploration of the importance of books and libraries in the ancient world that highlights how humanity's obsession with the printed word has echoed throughout the ages Long before books were mass-produced, scrolls hand copied on reeds pulled from the Nile were the treasures of the ancient world. Emperors and Pharaohs were so determined to possess them that they dispatched emissaries to the edges of earth to bring them back. When Mark Antony wanted to impress Cleopatra, he knew that gold and priceless jewels would mean nothing to her. So, what did he give her? Books for her library—two hundred thousand, in fact. The long and eventful history of the written word shows that books have always been and will always be a precious—and precarious—vehicle for civilization. Papyrus is the story of the book's journey from oral tradition to scrolls to codices,

and how that transition laid the very foundation of Western culture. Award-winning author Irene Vallejo evokes the great mosaic of literature in the ancient world from Greece's itinerant bards to Rome's multimillionaire philosophers, from opportunistic forgers to cruel teachers, erudite librarians to defiant women, all the while illuminating how ancient ideas about education, censorship, authority, and identity still resonate today. Crucially, Vallejo also draws connections to our own time, from the library in war-torn Sarajevo to Oxford's underground labyrinth, underscoring how words have persisted as our most valuable creations. Through nimble interpretations of the classics, playful and moving anecdotes about her own encounters with the written word, and fascinating stories from history, Vallejo weaves a marvelous tapestry of Western culture's foundations and identifies the humanist values that helped make us who we are today. At its heart a spirited love letter to language itself, Papyrus takes readers on a journey across the centuries to discover how a simple reed grown along the banks of the Nile would give birth to a rich and cherished culture.

Encyclopedia of the Ancient World Jul 13 2021 First Published in 2000. Routledge is an imprint of Taylor & Francis, an informa company.

Popular Culture in the Ancient World Jul 25 2022 This book adopts a new approach to the classical world by focusing on ancient popular

culture.

A Companion to the Archaeology of Religion in the Ancient World

Aug 14 2021 A Companion to the Archaeology of Religion in the Ancient World presents a comprehensive overview of a wide range of topics relating to the practices, expressions, and interactions of religion in antiquity, primarily in the Greco-Roman world. • Features readings that focus on religious experience and expression in the ancient world rather than solely on religious belief • Places a strong emphasis on domestic and individual religious practice • Represents the first time that the concept of “lived religion” is applied to the ancient history of religion and archaeology of religion • Includes cutting-edge data taken from top contemporary researchers and theorists in the field • Examines a large variety of themes and religious traditions across a wide geographical area and chronological span • Written to appeal equally to archaeologists and historians of religion

City and Country in the Ancient World

Dec 26 2019 The ancient Greco-Roman world was a world of cities, in a distinctive sense of communities in which countryside was dominated by urban centre. This volume of papers written by influential archaeologists and historians seeks to bring together the two disciplines in exploring the city-country relationship.

The Seven Wonders of the Ancient World Jul 01 2020 First published in 1988. Can you

name the Seven Wonders of the Ancient World? Did they even exist? The Pharos at Alexandria survived into the Middle Ages, but the Hanging Gardens of Babylon exist only in references by ancient authors and the Colossus of Rhodes if too improbable to have existed in the form and place traditionally ascribed to it. The Seven Wonders of the Ancient World sets the record straight, with an attractive account of each Wonder in the context in which it was built. The authors combine ancient sources with the results of modern scholarship and excavations to recreate a vivid picture of the Seven Wonders. All experts in their specialist fields, the contributors bring together facts and background that are remarkably difficult to find from any other single source and establish for the first time the archaeology and location of each Wonder.

Truth and History in the Ancient World

Dec 18 2021 This collection of essays investigates histories in the ancient world and the extent to which the producers and consumers of those histories believed them to be true. Ancient Greek historiographers repeatedly stressed the importance of truth to history; yet they also purported to believe in myth, distorted facts for nationalistic or moralizing purposes, and omitted events that modern audiences might consider crucial to a truthful account of the past. Truth and History in the Ancient World explores a pluralistic concept of truth – one in which different versions of the same historical

event can all be true – or different kinds of truths and modes of belief are contingent on culture. Beginning with comparisons between historiography and aspects of belief in Greek tragedy, chapters include discussions of historiography through the works of Herodotus, Xenophon, and Ktesias, as well as Hellenistic and later historiography, material culture in Vitruvius, and Lucian’s satire. Rather than investigate whether historiography incorporates elements of poetic, rhetorical, or narrative techniques to shape historical accounts, or whether cultural memory is flexible or manipulated, this volume examines pluralities of truth and belief within the ancient world – and consequences for our understanding of culture, ancient or otherwise.

The Ancient World in 100 Words

Nov 28 2022 How do you sum up the ancient world in just 100 words? This book takes on the challenge! With 100 carefully chosen words, each explained in just 100 words, this book provides a quick and fun insight into the characters, events and inventions of the ancient world. With entries on the Egyptians, the Phoenicians, the Minoans, the Greeks, and the Romans, this book is an easy way to gain a rounded knowledge of the subject area, while also sparking discussion and provoking thought from readers, young and old. What were pyramids used for? How did the Romans fight battles? Which Greek inventions are

still used today? Each word is brought to life with engaging illustrations and absorbing text, sure to inspire the imagination of budding historians.

World History Sep 14 2021

An essential gift for every history buff, this boldly illustrated book maps out the events that have shaped our world - from the dawn of human civilization to the present day. A comprehensive and accessible guide to the history of human civilisation, *World History* profiles everything from the emergence of Homo Sapiens to the Greek and Roman empires, through Chinese dynasties, the rise of the Vikings, and the Renaissance, to the Industrial Revolution and World War I and II. Offering a concise and insightful overview of key historical milestones that have occurred over the course of the last century, the book also covers more recent events such as the rise of ISIS, the Arab Spring, and Brexit and populism in the Western world.

The Book of the Ancient

World Oct 28 2022 The *Book of the Ancient World* is an account of our common heritage from the dawn of civilization to the coming of the Greeks. It is the story of how human beings began their great adventure of learning how to live; of how they have sought to satisfy the practical needs of their bodies, the questioning of their minds, and the searching of their spirits. To this end it subordinates details of political events to the record of things that lie at the foundation of our modern

civilization. Dorothy Mills had an uncanny and unique ability to write history that is interesting and at the same time based on sound scholarship. Her direct, engaging approach is valued increasingly by the many parents in our day who are looking for reliable materials for home study, as well as by many private school educators. The highly-prized six volumes of her historical works (see below) have become very scarce on the used book market, and so Dawn Chorus has undertaken to reprint them as part of its effort to offer texts ideally suited to the needs of a new generation of teachers and students. In a world where the quality of education has so deteriorated, may the reissue of this wonderful historical series shine as a beacon to a new generation of young (and not so young) scholars. Dawn Chorus publishes these five other books by Dorothy Mills: *The Book of the Ancient Greeks*; *The Book of the Ancient Romans*; *The People of Ancient Israel*; *The Middle Ages*; and *Renaissance and Reformation Times*. Dawn Chorus has also republished another outstanding, and long-out-of-print historical series perfectly suited for home or school use (and highly recommended in home-school curricula), entitled *The Picturesque Tale of Progress*, by Olive Beaupre Miller. It is available in large format (9 volumes), or smaller, double-bound format (5 volumes). *Seven Wonders of the Ancient World* May 30 2020 The *Seven Wonders of the Ancient World*,

and all sorts of mysteries attaching to them, have intrigued people since the second century BCE. Why were these particular creations chosen and when? And why did the ancients want to draw up such a list in the first place? What were the technical and cultural factors involved in the creation and listing of the Wonders? The *Seven Wonders* still rival many of the phenomenal products of both nature and mankind in their size, majesty, and beauty. Six of them no longer stand, having been destroyed by natural disaster or by human intervention. From the Pyramids at Giza to the Colossus of Rhodes, from the Hanging Gardens of Babylon to the Lighthouse of Alexandria, from the Temple of Ephesus to the Mausoleum at Halicarnassus and the Statue of Zeus at Olympia, the *Seven Wonders of the Ancient World* have never ceased to fascinate down the ages.

The Etruscans in the Ancient World Jan 25 2020 Describes the religious and spiritual life of the Etruscans, their links with other ancient cultures, their art work, etc.

Warfare in the Ancient World: From the Bronze Age to the Fall of Rome Jan 31 2023 From the clash of bronze weapons on bronze armor to the fall of Rome, war often decided the course of ancient history. This volume is a practical introduction to the study of warfare in the ancient world, beginning with Egypt and Mesopotamia, and tracing the advances made in battle tactics, technology, and

government over hundreds of years, culminating with developments in Greece and the Roman Empire. The chronological structure allows the reader to trace certain general themes down through the centuries: how various civilizations waged war; who served in the various armies and why; who the generals and officers were who made the decisions in the field; what type of government controlled these armies; and from what type of society they sprang. Major events and important individuals are discussed in their historical contexts, providing a complete understanding of underlying causes, and enabling readers to follow the evolution of ancient warfare as armies and empires became steadily larger and more sophisticated. Yet as Chrissanthos makes clear, history comes full circle during this period. Rome's collapse in 476 C.E. inaugurated an unforeseen dark age in which great armies were left decimated despite advanced technology that, while proving decisive in the outcome of many critical battles and stand-offs, had vanished amidst the Empire's crumbling walls. In addition to the chronological treatment, Chrissanthos also includes sections on such important topics as chariot warfare, cavalry, naval warfare, elephants in battle, the face of battle, and such vital, but often-overlooked topics as the provisioning of the army with sufficient food and water. Eyewitness accounts are incorporated throughout each chapter,

allowing the reader brief glimpses into the life and times of peasants and soldiers, generals and politicians, all of whom were dealing with war and its irreconcilable consequences from differing vantage points. Battle diagrams and maps are carefully placed throughout the text to help the reader visualize particular aspects of ancient warfare. The book also furnishes a detailed timeline and an extensive bibliography containing both modern and ancient sources.

Wonders of the Ancient World

May 23 2022 This book's hero is Darius Antonopoulos, an artist and apprentice printer who left London in 1605 to visit his ancestral home in Greece. What he found there was to send him on an incredible journey - a quest to discover the Seven Wonders of the World.

Sport and Spectacle in the Ancient World

Apr 29 2020 The second edition of Sport and Spectacle in the Ancient World updates Donald G. Kyle's award-winning introduction to this topic, covering the Ancient Near East up to the late Roman Empire. • Challenges traditional scholarship on sport and spectacle in the Ancient World and debunks claims that there were no sports before the ancient Greeks • Explores the cultural exchange of Greek sport and Roman spectacle and how each culture responded to the other's entertainment • Features a new chapter on sport and spectacle during the Late Roman Empire, including Christian opposition to pagan games and the Roman response

• Covers topics including violence, professionalism in sport, class, gender and eroticism, and the relationship of spectacle to political structures

Encyclopedia of Women in the Ancient World

Feb 17 2022 "This extensive and engaging A-to-Z encyclopedia, illustrated with many rare and revealing images, tells the stories of the famous and the ordinary, treating subjects as diverse as Greek heroine cults, the daily life of the German warrior women, and the intrigue, glory, and power of ancient Rome's imperial women. Hundreds of well-researched entries, each with suggestions for further reading, give a rounded view of the lives of women in the ancient world."--BOOK JACKET.

The Class Struggle in the Ancient Greek World

Sep 02 2020
Army and Power in the Ancient World Jun 23 2022
Papers from a round table held Aug. 9, 2000, in Oslo.

Politics in the Ancient World

Feb 26 2020 Sir Moses Finley explores politics in the city states of Greece and republican Rome and their impact on our understanding of the ancient world.

Social Justice in the Ancient World

Mar 21 2022 Annotation Essays on the ways the demand for social justice was articulated and implemented in ancient civilizations.

An Introduction to the Ancient World Apr 02 2023 This lavishly illustrated introductory history covers 3,000 years of the ancient Near East, Greece and Rome within the

framework of a short narrative history of events. Focusing mainly on the social, political and cultural processes which have influenced later western civilizations, An Introduction to the Ancient World considers subjects such as the religions of the ancient Near East, Athenian democracy, the interaction of cultures in the Hellenistic world, the political and administrative system of the Roman republic and empire, gender problems and ancient demography. This book shows how the Near East, Greece and Rome witnessed the emergence of city and state government, the development of decision processes, expansion and the effects of social structures, interaction of different cultures, and the emergence of Judaism and Christianity. Anyone interested in ancient history, classics and archaeology, will need this accessible and comprehensive book.

Consumerism in the Ancient World Oct 16 2021 Greek pottery was exported around the ancient world in vast quantities over a period of several centuries. This book focuses on the Greek pottery consumed by people in the western Mediterranean and trans-Alpine Europe from 800-300 BCE, attempting to understand the distribution of vases, and particularly the reasons why people who were not Greek decided to acquire them. This new approach includes discussion of the ways in which objects take on different meanings in new contexts, the linkages between the consumption of goods and

identity construction, and the utility of objects for signaling positive information about their owners to their community. The study includes a database of almost 24,000 artifacts from more than 230 sites in Portugal, Spain, France, Switzerland, and Germany. This data was mapped and analyzed using geostatistical techniques to reveal different patterns of consumption in different places and at different times. The development of the new approaches explored in this book has resulted in a shift away from reliance on the preserved fragments of ancient Greek authors' descriptions of western Europe, remains of monumental buildings, and major artworks, and toward investigation of social life and more prosaic forms of material culture.
