Welcome to Kittur, India. It's on India's southwestern coast, bounded by the Arabian Sea to the west and the Kalamangudi River to the south and east. It's blessed with rich soil and scenic beauty, and it's been around for centuries. Of its 193,432 residents, only 89 declare themselves to be without religion or caste. And if the characters in *Between the Assassinations* are any indication, Kittur is an extraordinary crossroads of the brightest minds and the poorest morals, the up-and-coming and the downtrodden, and the poets and the prophets of an India that modern literature has rarely addressed. A twelve-year-old boy named Ziauddin, a gofer at a tea shop near the railway station, is enticed into wrongdoing because a fair-skinned stranger treats him with dignity and warmth. George D'Souza, a mosquito-repellent sprayer, elevates himself to gardener and then chauffeur to the lovely, young Mrs. Gomes, and then loses it all when he attempts to be something more. A little girl's first act of love for her father is to beg on the street for money to support his drug habit. A factory owner is forced to choose between buying into underworld economics and blinding his staff or closing up shop. A privileged schoolboy, using his own ties to the Kittur underworld, sets off an explosive in a Jesuit-school classroom in protest against casteism. A childless couple takes refuge in a rapidly diminishing forest on the outskirts of town, feeding a group of "intimates" who visit only to mock them. And the loneliest member of the Marxist-Maoist Party of India falls in love with the one young woman, in the poorest part of town, whom he cannot afford to wed. *Between the Assassinations* showcases the most beloved aspects of Adiga's writing to brilliant effect: the class struggle rendered personal; the fury of the underdog and the fire of the iconoclast; and the prodigiously ambitious narrative talent that has earned Adiga acclaim around the world and comparisons to Gogol, Ellison, Kipling, and Palahniuk. In the words of *The Guardian* (London), "*Between the Assassinations* shows that Adiga...is one of the most important voices

to emerge from India in recent years." A blinding, brilliant, and brave mosaic of Indian life as it is lived in a place called Kittur, *Between the Assassinations*, with all the humor, sympathy, and unflinching candor of *The White Tiger*, enlarges our understanding of the world we live in today. A first responder's harrowing account of 9/11—the inspirational true story of an American hero who gave nearly everything for others during one of New York City's darkest hours. On September 11, 2001, FDNY Battalion Chief Richard "Pitch" Picciotto answered the call heard around the world. In minutes, he was at Ground Zero of the worst terrorist attack on American soil, as the Twin Towers of the World Trade Center began to burn—and then to buckle. A veteran of the 1993 bombing of the World Trade Center, Picciotto was eerily familiar with the inside of the North Tower. And it was there that he concentrated his rescue efforts. It was in its smoky stairwells where he heard and felt the South Tower collapse. He made the call for firemen and rescue workers to evacuate, while he stayed behind with a skeleton team of men to help evacuate a group of disabled and infirm civilians. And it was in the rubble of the North Tower where Picciotto found himself buried—for more than four hours after the building's collapse. Decorated CIA analyst Mark Henshaw continues the "authentic, compelling, and revealing" (Jason Matthews) Red Cell series following agent Kyra Stryker who must work with retired analyst Jonathan Burke to save the CIA from being torn apart by a conspiracy of moles. New Red Cell Chief Kyra Stryker has barely settled into the job when an attack on an Israeli port throws the Middle East into chaos. The Mossad—Israel's feared intelligence service—responds with a campaign of covert sabotage and assassination, determined to protect the homeland. But evidence quickly turns up suggesting that a group of moles inside Langley are helping Mossad wage its covert war. Convinced that Mossad has heavily penetrated the CIA's leadership, the FBI launches a counterintelligence investigation that threatens to cripple the Agency—and anyone who questions the official story is suspect. With few officials willing to help for fear of getting accused, Kyra turns to her former mentors—now-retired Red Cell Chief Jonathan Burke and his wife, former CIA Director Kathryn Cooke—to help uncover who is trying to tear the CIA apart from the inside out. 'Rivetingly told . . . a terrifically assured hybrid of fiction and life-writing' - *New Statesman* 'Dennis Glover's pacy novelisation of Orwell's life takes its title from the one Orwell first had in mind for his totalitarian dystopia . . . Glover magically wrings high-stakes drama from the fundamentally undramatic scene of the writer at his desk' - *Daily Mail* *The Last Man in Europe* adopts the sound of Orwell so brilliantly . . . anyone with an interest in Orwell will certainly enjoy it' - *Orwell Society* *The Last Man in Europe* shows its readers the influences

which shaped Orwell's masterpiece, but transcends even that, giving an affecting portrait of the man himself' - *The Herald* 1947. In a damp, run-down farmhouse on the island of Jura, George Orwell is embarking on his greatest work: *Nineteen Eighty-Four*. Forty-four years old and suffering from the tuberculosis that will eventually take his life, this book is his legacy - the culmination of a career spent fighting to preserve the freedoms which the wars and upheavals of the twentieth century have threatened. Completing the book is an urgent task - a race against death. Dennis Glover explores the creation of Orwell's final work, which for millions of readers worldwide defined the twentieth century. Simultaneously a captivating drama, a unique literary excavation and an unflinching portrait of a beloved writer, *The Last Man in Europe* will change the way you understand *Nineteen Eighty-Four* and George Orwell himself. Russia is dying from within. Oligarchs and oil barons may still dominate international news coverage, but their prosperity masks a deep-rooted demographic tragedy. Faced with staggering population decline—and near-certain economic collapse—driven by toxic levels of alcohol abuse, Russia is also battling a deeper sickness: a spiritual one, born out of the country's long totalitarian experiment. In *The Last Man in Russia*, award-winning journalist Oliver Bullough uses the tale of a lone priest to give life to this national crisis. Father Dmitry Dudko, a dissident Orthodox Christian, was thrown into a Stalinist labor camp for writing poetry. Undaunted, on his release in the mid-1950s he began to preach to congregations across Russia with little concern for his own safety. At a time when the Soviet government denied its subjects the prospect of advancement, and turned friend against friend and brother against brother, Dudko urged his followers to cling to hope. He maintained a circle of sacred trust at the heart of one of history's most deceitful systems. But as Bullough reveals, this courageous group of believers was eventually shattered by a terrible act of betrayal—one that exposes the full extent of the Communist tragedy. Still, Dudko's dream endures. Although most Russians have forgotten the man himself, the embers of hope that survived the darkness are once more beginning to burn. Leading readers from a churchyard in Moscow to the snow-blanketed ghost towns of rural Russia, and from the forgotten graves of Stalin's victims to a rock festival in an old gulag camp, *The Last Man in Russia* is at once a travelogue, a sociological study, a biography, and a *cri de coeur* for a dying nation—one that, Bullough shows, might yet be saved. Based on a true story of Northern Arizona's notorious Hashknife gang, Zane Grey's classic 1921 western novel tells the tale of Jean Isbel, a woodsman hailing from Oregon. Caught in a bitter feud between the Isbels and the cattle-rustling Jorths, Jean is dragged into a generations-long clash between the two families, both of whom have sworn to fight until no man on the other side is left standing.

Amidst it all, Jean finds himself hopelessly in love with Ellen - a Jorth, and a daughter of his family's sworn enemies. Separated by the seemingly impassable barrier between them, Jean must survive the Jorths' relentless desire for vengeance, and find a way to heal a years-old wound, so that he can be with the woman he loves. 'Is there anything in sport to compare with the sustained excitement of a cricket match, especially a Test match, in which the advantage continually fluctuates one way and then the other, and when the match enters its last few minutes, all four results are still possible?' After entertaining countless radio listeners around the world for decades, who better to convey the breathless drama of a Test match cliffhanger than Henry Blofeld? Now, in *Ten to Win . . . and the Last Man In*, he has personally selected thirty matches featuring unforgettable finishes and brought them vividly to life again in his own inimitable way. Ranging from the match-winning bowling of F.R. Spofforth against W.G. Grace's England in 1882, via the first tied Test between Benaud's Australia and Worrell's West Indies in 1960, to the never-say-die batting of Ben Stokes in 2019, he picks out the key events and performances of each memorable match and describes them as only he can. Alongside the big-hitting heroics of Jessop in 1902 and Botham in 1981, he revisits less celebrated matches such as South Africa's hard-fought first Test win in 1906, as well as a crucial innings from Denis Compton in 1948 and a match-saving performance by a young Alan Knott in Guyana in 1968 - one of the most exciting matches he has ever witnessed first-hand. Filled with colourful detail and informed by insight gained from a lifetime immersed in the sport he loves, Henry Blofeld's latest book will leave the reader in no doubt - as he himself puts it - about 'what an absurdly irresistible game cricket can be'. David Baldacci uses his unsurpassed storytelling skills to explore the essence of survival itself, as a conspiracy of violence surrounds an FBI agent whose fate was to be the . . . *Last Man Standing*. Seven seconds. That's all it took for Web London to lose everything: his friends, his team, his reputation. Point man of the FBI's super-elite Hostage Rescue Team, Web roared into a blind alley towards a drug leader's lair, only to meet a high-tech, custom-designed ambush that killed everyone around him. Coping with the blame-filled words of anguished widows and the suspicions of colleagues, Web tries to put his life back together. To do so, he must discover why he was the one man who lived through the ambush - and find the only other person who came out of the alley alive . . . a ten-year-old boy who has since disappeared. Acting on his instincts, Web believes he knows where the killer will strike next. Only this time, he may not survive the attack. Mary Shelley's third published novel, *The Last Man*, is a disillusioned vision of the end of civilization, set in the twenty-first century. The book offers a sweeping account of war, plague, love, and desolation. It is the sort of apocalyptic vision that was widespread at the time, though Shelley's treatment of the theme goes beyond the conventional; it is extraordinarily interesting and deeply moving. If *The Last Man* is in some sense a "conventional" text of the period, it is also intensely personal in its origin; Shelley refers in

her journal to the last man as her alter ego, "the last relic of a beloved race, my companions extinct before me." The novel thus develops out of and contributes to a network of story and idea in which fantasy, allusion, convention, and autobiography are densely interwoven. This new version of the first edition (1826) sets out to provide not only a thoroughly annotated text, but also contextual materials to help the reader acquire knowledge of the intellectual and literary milieu out of which the novel emerged. Appendices include material on "the last man" as early nineteenth-century hero, texts from the debate initiated by Malthus in 1798 about the adequacy of food supply to sustain human population, various accounts of outbreaks of plague, and Shelley's poems representing her feelings after the death of her husband. 'Hers is a formidable achievement.' - Sebastian Faulks This is the account of the battle, the retreat and the stand at Amiens which saved the city, secured the line, and caused Ludendorff to call off his offensive in the spring of 1918. But mostly it is the story of the men who took part: the Commanders, the weary, resolute British Tommies, the exultant Germans, the French poilus rushed up to stiffen the defence and the still unblooded Doughboys from the U.S. *Last Man in the Q* is the stand of one man amongst millions, one of those many alone and lost in a world of service, in solidarity against injustice. This book is a narrative by a doctor who, with gratitude for the free government education he received, chose a path of self-sufficiency and of service to his fellow man. Driven by an intense desire to make a livelihood out of his own skills, hard work, dedication and knowledge, the last man in the queue draws from his experiences as he grew his own practice from a dream to fruition, in order to draw attention to inherent failings within the 'system.' Considering the needs of his patients and customers to be of the greatest concern, the last man in the Q is offended by any insinuation that his motivations be financial, as he strives and perseveres for the greater good, withstanding unnecessary struggles to provide for all concerned. The last man in the Q is far from alone in these struggles, there are millions alike, and in coming together as one force, a triumphant fight can be waged against a 'system' of injustice and exploitation. ?? ?????? ??? ?? ??????? ?? ??? ??? ?????? ?? ??? ?????? ??? - ??????? ?????? ??????? ??? From the Booker Prize-winning author of *The White Tiger*, a stunning novel of greed and murder in contemporary Mumbai. At the heart of Adiga's gripping second novel ("his plots don't unwind, they surge" —USA Today) are two equally compelling men, poised for a showdown. Real estate developer Dharmen Shah rose from nothing to create an empire and hopes to seal his legacy with a luxury building named the Shanghai. Larger-than-life Shah is a dangerous man to refuse. But he meets his match in retired schoolteacher Masterji. Shah offers a generous buyout to Masterji and his neighbors in a once respectable, now crumbling apartment building on whose site Shah's high-rise would be built. They can't believe their good fortune. Except, that is, for Masterji, who refuses to abandon the building he has long called home. As the demolition deadline looms, desires mount; neighbors become enemies, and acquaintances turn into conspirators who risk

losing their humanity to score their payday. Here is a richly told, suspense-fueled story of ordinary people pushed to their limits in a place that knows none: the new India as only Aravind Adiga could explore—and expose—it. From the #1 bestselling author of *Heat*, *Travel Team* and *Fantasy League* comes a story of heroes, family, the thrills of skateboarding, and football. When the Brighton Bears suit up on game day, 12-year-old Tommy Gallagher is the toughest kid on the football field. And the bravest. After all, his father Patrick is a Boston firefighter—one of Boston's bravest. Tommy's dad taught him everything he knows about football—and life. Yet even Tommy isn't strong enough for what happens when the sirens ring and, for the first time, they're racing away from the fire. "First man in; last man out" had always been his dad's motto . . . yet he never said anything about leaving in an ambulance. What kind of risk had his dad taken? Now Tommy's biggest battle has nothing to do with football. And the kid who always had such respect for risk on the gridiron finds himself drawn to it off the field. Set in New England, home of the Patriots' football dynasty, Mike Lupica shows off his trademark knack for spinning a tale that's equal parts sports action and heart. *Last Man Out* is a thoughtful tribute to the bravery of firefighters and the need we all have to live up to the level of our heroes. Praise for *Last Man Out* "[S]hort, action-packed chapters . . . will keep even the most reluctant readers motivated to keep reading. As is characteristic of Lupica's books, the sports segments, most particularly the football portions, are exceptionally well written."--VOYA "Lupica stirs equal quantities of grief and gridiron action into his latest outing. Lupica effectively puts readers into the center of the action . . . [I]n the best traditions of sports writing, this will leave readers both breathless and thoughtful."--Booklist *The Last Man* is an apocalyptic science fiction novel. The book tells of a future world (the first-person narrative is that of a man living at the end of the 21st century) that has been ravaged by a plague. The novel was harshly reviewed at the time, and was virtually unknown until a scholarly revival beginning in the 1960s. As a small boy in Epping Forest, Jack Straw could never have imagined that one day he would become Britain's Lord Chancellor. As one of five children of divorced parents, he was bright enough to get a scholarship to a direct-grant school, but spent his holidays as a plumbers' mate for his uncles to bring in some much-needed extra income. Yet he spent 13 years and 11 days in government, including long and influential spells as Home Secretary and Foreign Secretary. This is the story of how he got there. His memoirs offer a unique insight into the complex, sometimes self-serving but always fascinating world of British politics and reveals the toll that high office takes, but , more importantly, the enormous satisfaction and extraordinary privilege of serving both your constituents and your country. Straw's has been a very public life, but he reveals the private face, too and offers readers a vivid and authoritative insight into the Blair/Brown era and, indeed, the last forty years of British politics. The adventures of a group who survived a poisonous cloud that turned everyone else into stone. Speed skater Steven Bradbury collected perhaps the most unlikely,

unthinkable gold medal in the history of the Olympics. His last-to-first roll to gold at the 2002 Salt Lake City Winter Games captured the imagination of millions of people around the world. In crisp and colourful prose, Smart has captured Bradbury's larrikin life. "Yorick and Agent 355 prepare for their ultimate quest to reunite the last man with his lost love, while the person, people or thing behind the disaster that wiped out half of humanity is revealed."-- Provided by publisher. The sole survivor of a devastating ambush, FBI Hostage Rescue Team agent Web London would do anything to find out what really happened that night--and a ten year old boy may be the unexpected key in this #1 New York Times bestselling thriller. Web London was trained to penetrate hostile ground and come out alive. Then ten seconds in a dark alley cost him everything: his friends, his fellow agents, his reputation. Among his super-elite FBI Hostage Rescue Team, Web was the sole survivor of a high-tech, devastating ambush. Now Web is trying to put his life back together and understand what really happened. To get answers, he'll need the help of psychiatrist Claire Daniels and the one other human being who lived through the attack--a ten-year-old boy. But when his search leads him back to that bloodstained alley, Web suddenly realizes he is about to face his assassin again. And this time, one of them will become the Last Man Standing. A MAN FOR ALL SEASONS In 2002, the world changes forever. Every man, every boy, every mammal with a Y chromosome everywhere on Earth suddenly collapses and dies. With the loss of nearly half the planet's population, the gears of society grind to a halt, and a world of women is left to pick up the pieces and try to keep civilization from collapsing entirely. The "gendercide," however, is not absolutely complete. For some unknown reason, one young man named Yorick Brown and his pet male monkey, Ampersand, are spared. Overnight, this anonymous twenty-something becomes the most important person on the planet — the key, it is hoped, to unlocking the secret of the mysterious sex-specific plague. For Yorick himself, the cause of the epidemic is less important than the fate of his beloved fiancée, Beth. Now, after nearly four years and countless grueling miles, the final answers are about to be revealed—and the truth may be more than any man could bear. In the conclusion to their acclaimed Vertigo series Y: The Last Man, writer Brian K. Vaughan and artist Pia Guerra bring to vivid life the age-old speculation: What would really happen to the last man on Earth? Collects Y: The Last Man #49-60. Here is a richly told, suspense-fueled story of ordinary people pushed to their limits in a place that knows none: the new India as only Aravind Adiga could explore—and expose—it. From June 1942 to October 1943, more than 100,000 Allied POWs who had been forced into slave labor by the Japanese died building the infamous Burma-Thailand Death Railway, an undertaking immortalized in the film "The Bridge on the River Kwai." One of the few who survived was American Marine H. Robert Charles, who describes the ordeal in vivid and harrowing detail in *Last Man Out*. The story mixes the unimaginable brutality of the camps with the inspiring courage of the men, including a Dutch Colonial Army doctor whose skill and knowledge of the medicinal value of wild jungle herbs saved the lives of hundreds of his fellow POWs, including the author. Grainville's masterful imagination is evident in the vast scale of the action as Omegarus, the Last Adam, and Syderia, the Last Eve, are led toward the moment when "the light of the sun and the stars is extinguished." This is essential reading for anyone interested in the roots of apocalyptic science fiction."--BOOK JACKET. In the midst of the most disastrous economic climate of Wall Street's history, one executive has weathered the storm more deftly than any other: Jamie Dimon, chairman and CEO of JPMorgan Chase. In 2008, while Dimon's competitors watched their companies crumble, JPMorgan not only survived, it made an astonishing \$5 billion profit. Dimon's continued triumph in the face of an industry-wide meltdown has made him a paragon of finance. In *Last Man Standing*, award-winning journalist Duff McDonald provides an unprecedented and deeply personal look at the extraordinary figure behind JPMorgan's success. Using countless hours of interviews with Dimon and his full circle of friends, family, and colleagues, this definitive biography is by far the most comprehensive portrait of the man known as the Savior of Wall Street. Now, in an updated prologue, McDonald offers insight into the future of Wall Street and how Dimon will overcome the challenge of aggressive new regulation from Washington—and how he plans to continue to thrive as the world's preeminent banker. Sadly her social climbing grandfather's notions of worth and her own are not in the least alike, and nothing but a Lord will satisfy the terms of his will. But Dinah is alone in the world and has no entry into the select ranks of the ton. She does, however, know a thing or two about blackmail. Lord Benjamin Lancaster is a determined rake, a hardened gambler, and the kind of man who fills Dinah with disgust. However a title is a title, and she's quite content to use him for her own ends. Yet her fake fiancé is not quite as easy to handle as Dinah had hoped, and he's determined to have more for his trouble than

the financial reward promised him. Afraid they will be taken to live in a camp, they decide to escape to the other side of the island and encounter many difficulties along the way. What if... In Jane Austen's *Pride and Prejudice*, Elizabeth Bennet tells the proud Mr. Fitzwilliam Darcy that she wouldn't marry him if he were the last man in the world. But what if she never said the words? What if circumstances conspired to make her accept Darcy the first time he proposes? In this installment of Abigail Reynolds's acclaimed *Pride and Prejudice Variations*, Elizabeth agrees to marry Darcy against her better judgment, setting off a chain of events that nearly brings disaster to them both... What readers are saying "A highly original story, immensely satisfying." "Anyone who loves the story of Darcy and Elizabeth will love this variation." "I was hooked from page one." In a career that spans over seven decades, Roger Moore has been at the very heart of the show-business scene. In this fabulous collection of true stories from his stellar career, Roger lifts the lid on the movie business, from Hollywood to Pinewood. Wonderfully entertaining and laugh-out-loud fun The definitive biography of the brilliant, charismatic, and very human physicist and innovator Enrico Fermi In 1942, a team at the University of Chicago achieved

what no one had before: a nuclear chain reaction. At the forefront of this breakthrough stood Enrico Fermi. Straddling the ages of classical physics and quantum mechanics, equally at ease with theory and experiment, Fermi truly was the last man who knew everything—at least about physics. But he was also a complex figure who was a part of both the Italian Fascist Party and the Manhattan Project, and a less-than-ideal father and husband who nevertheless remained one of history's greatest mentors. Based on new archival material and exclusive interviews, *The Last Man Who Knew Everything* lays bare the enigmatic life of a colossus of twentieth century physics. Foucault's personal and political experimentation, its ambiguous legacy, and the rise of neoliberal politics Part intellectual history, part critical theory, *The Last Man Takes LSD* challenges the way we think about both Michel Foucault and modern progressive politics. One fateful day in May 1975, Foucault dropped acid in the southern California desert. In letters reproduced here, he described it as among the most important events of his life, one which would lead him to completely rework his *History of Sexuality*. That trip helped redirect Foucault's thought and contributed to a tectonic shift in the intellectual life of the era. He came to reinterpret the social movements of May '68 and reposition himself politically in France, embracing anti-totalitarian currents and becoming a critic of the welfare state. Mitchell Dean and Daniel Zamora examine the full historical context of the turn in Foucault's thought, which included studies of the Iranian revolution and French socialist politics, through which he would come to appreciate the possibilities of autonomy offered by a new force on the French political scene that was neither of the left nor the right: neoliberalism. Ever since its first publication in 1992, *The End of History and the Last Man* has provoked controversy and debate. Francis Fukuyama's prescient analysis of religious fundamentalism, politics, scientific progress, ethical codes, and war is as essential for a world fighting fundamentalist terrorists as it was for the end of the Cold War. Now updated with a new afterword, *The End of History and the Last Man* is a modern classic. The basis of the 2014 award-winning feature-length documentary! A revealing and dramatic look at the inside of the American Space Program from one of its pioneers. Eugene Cernan was a unique American who came of age as an astronaut during the most exciting and dangerous decade of spaceflight. His career spanned the entire Gemini and Apollo programs, from being the first person to spacewalk all the way around

our world to the moment when he left man's last footprint on the Moon as commander of Apollo 17. Between those two historic events lay more adventures than an ordinary person could imagine as Cernan repeatedly put his life, his family and everything he held dear on the altar of an obsessive desire. Written with New York Times bestselling author Don Davis, *The Last Man on the Moon* is the astronaut story never before told - about the fear, love and sacrifice demanded of the few men who dared to reach beyond the heavens for the biggest prize of all - the Moon. Three hundred years ago, it was possible to have read all of the important books in the world. Most intelligent people of the time believed the world was a living organism. Matter was alive (hylozoism), or mind was everywhere (panpsychism), or God was everywhere (theism), or God and Nature were one (pantheism). A hundred years later, the world was viewed as a vast, purposeless machine. Either there was no God (atheism), or he was a remote God of Laws (deism) and not of revelation and salvation. Leibniz was the last genius to know everything and to accept that the universe was an organism - a mathematical organism. Leibniz was the secret author of the Illuminati's Grand Unified Theory of Everything based on "nothing". He created an entire universe out of a "Big Bang" singularity comprising infinite "monads" (zeros), each with infinite energy capacity. This is the story of the first mathematical Theory of Everything. Leibniz's monads have one last, incredible secret to reveal: they are souls!
