The work of John Jodzio has already made waves across the literary community. Some readers noticed his nimble blending of humor with painful truths reminded them of George Saunders. His creativity and fresh voice reminded others of Wells Tower's *Everything Ravaged, Everything Burned*. But with his new collection, Jodzio creates a class of his own. *Knockout* is the unified collection of stories that create flawless portraits of deeply flawed figures on the edge of the American Dream. A recovering drug addict gets tricked into stealing a tiger. A man buys a used sex chair from his neighbor. A woman suffering from agoraphobia raises her son completely indoors. An alcoholic runs a bed and breakfast with the son from his deceased wife's first marriage. These people will admit that their chances have passed them by. These people know they were born on the wrong side of the tracks, and their dreams will remain unreachable, but that doesn't stop them from dreaming. Yet readers won't be fooled by the funny premises —Jodzio steers these stories into deeper places, creating a brilliant examination of those on the fringes of modern life. With its quirky humor, compelling characters, and unexpected sincerity, *Knockout* by John Jodzio is poised to become his breakout book, drawing a wide readership to this provocative and talented young writer. As Toyota skids into an ocean of problems and uncertainty continues in the U.S. automotive industry, *Lemon-Aid Used Cars and Trucks 2011-2012* shows buyers how to pick the cheapest and most reliable vehicles from the past 30 years. *Lemon-Aid* guides are unlike any other car and truck books on the market. Phil Edmonston, Canada's automotive Dr. Phil for

40 years, pulls no punches. Like five books in one, Lemon-Aid Used Cars and Trucks is an exposé of car scams and gas consumption lies; a do-it-yourself service manual; an independent guide that covers beaters, lemons, and collectibles; an archive of secret service bulletins granting free repairs; and a legal primer that even lawyers can't beat! Phil delivers the goods on free fixes for Chrysler, Ford, and GM engine, transmission, brake, and paint defects; lets you know about Corvette and Mustang tops that fly off; gives the lowdown on Honda, Hyundai, and Toyota engines and transmissions; and provides the latest information on computer module glitches. For the first time in one volume, Phil Edmonston, Canada's automotive "Dr. Phil," covers all used vehicles, packing this guide with insider tips to help the consumer make the safest and cheapest choice possible from cars and trucks of the past 25 years. This 1984 Ford Econoline Van Electrical Vacuum Troubleshooting Manual is a high-quality, licensed PRINT reproduction of the parts catalog authored by Ford Motor Company and published by Detroit Iron. It contains 118 pages of detailed parts information via exploded diagram cutouts of sections of your vehicle assembly with parts numbers and textual descriptions. A parts guide provides part interchange information so you can find replacement parts. The part book sections usually include: suspension, engine, transmission, body fittings/parts, brakes, cooling / radiator, exhaust, fenders, doors, fuel system, etc. The following 1984 Ford models are covered: E-150 Econoline, E-150 Econoline Club Wagon, E-250 Econoline, E-250 Econoline Club Wagon, E-350 Econoline, E-350 Econoline Club Wagon. This factory-written Detroit Iron shop manual is perfect for the restorer or anyone working on one of these vehicles. Love Inspired Suspense brings you three new titles at a great value, available now! Enjoy these suspenseful romances of danger and faith. SILENT SABOTAGE First Responders by Susan Sleeman Emily Graves moves to a small town to take over her aunt's bed-and-breakfast...and finds her life in jeopardy. Now if she wants to survive—and save the family business—Emily must turn to Deputy Sheriff Archer Reed for protection. PLAIN COVER-UP by Alison Stone Taking a leave from his job, FBI agent Dylan Hunter expects a chance to relax in a small Amish community—until his former love, Christina Jennings, is attacked. Somebody wants her dead...and she needs his help to stay alive. RANCH REFUGE Rangers Under Fire by Virginia Vaughan When former army ranger Colton Blackwell saves Laura Jackson from an attempted kidnapping, he takes her to his ranch for safety. But when the loan shark trying to collect on her father's debt sends attackers from all directions, will Colton's protection be enough? "The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about." – The Globe and Mail Lemon-Aid shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada's automotive "Dr. Phil" for over 40 years, Edmonston pulls no punches. His Lemon-Aid is more potent and provocative than ever. Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever. A commemorative history of fifty years of the iconic Ford Transit van, from the launch of the first-generation Transit in 1965, right up to the present day. Covering the full range of Transit models and with over three hundred photographs (including previously unpublished pictures from Ford's picture archive), Ford Transit - Fifty Years is an ideal resource for anyone with an interest in this world-beating commercial vehicle. Written by acknowledged Ford Transit expert Peter Lee, the book covers the development era, light commercial vehicles in the 1950s, the 'Project Redcap' prototypes and the first Transit. It goes on to describe the production and development of all eight generations and variants of Transits, including custom vans, camper vans, minibuses and special vehicle options. Specification guides, awards, and sales figures are all included as well as marketing worldwide. Finally, there are interviews with designers, engineers and Ford employees, along with owners' experiences. The Transit has and continues to receive numerous awards, voted 'International Van of the Year' in 2001 and 2013, and with the 2014 launch of the all-new two-tonne Transit and its pioneering technology, this looks to be only the first fifty years of the Ford Transit story. Fully illustrated with 200 colour and 100 black & white photographs, many previously unseen from Ford's archives. Build your dream van. Jumping into van life and living in a home on wheels doesn't mean you need to give up comfort or modernity. This book will guide you through every step, from choosing a van, to designing the layout, to plumbing and electrical systems, to self-building your new dream home -- all in as little as 21 days.- Zero Experience Required. We built our dream van with zero prior experience! Before the build, we had desk jobs -- and had never even touched many of the tools we used.- 220 pages of details. We cover every step of the process with charts, lists, photos, and descriptions to help you design and build your own campervan or motorhome from scratch. - Save Money & Time. We spent 9 months planning for our build, scouring an overwhelming number of articles and videos for the best and most useful information. This book will save you months of research, and help you make fewer mistakes. Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better. For anyone who has ever experienced the challenges of deciphering and applying the more difficult sections of the 2008 NEC®: Understanding and Applying the 2008 NEC offers fresh, easy to understand interpretations of the most challenging and commonly misunderstood sections of the NEC®. The author uses his 40+ years of experience to deliver a straightforward approach that eliminates the confusing technical and legal jargon of the code. Coverage begins by providing a tour of the NEC®, explaining its overall layout. It then progresses to how the electrical parameters of the other codes, such as building, fire, and utility codes, play a role in proper electrical installations. Perfect as an on-the-job reference to guide readers through easy, accurate installations; this is a comprehensive resource that will benefit aspiring and professional architects, engineers, electricians, inspectors, and anyone working in the electrical field.
