Offering an alternative to the theories of Skinner and other behaviorists, Rychlak draws upon recent research to support his belief that people can alter the grounds for their behavior and assume greater responsibility for it. The way out from debt is not a declaration of bankruptcy, but a surrender to the Word of God. Dayton shares how he overcame his own struggle by applying God's principles to managing his finances-- principles he lays out in this practical, encouraging book. Distribution-free statistical techniques are reviewed and evaluated for possible application to the signal detection problem. These techniques are classified into three types: (1) The noise distribution is known but the signal-plus-noise is not, (2) neither distribution is known but a pure-noise sample is available, and (3) the distributions and a pure-noise sample are all unavailable. Several of the distribution-free detectors are almost as efficient as their parametric counterparts and several are uniformly better than the parametric detectors for certain classes of Gaussian noise. (Author). Tuolumne Free Climbs features 110 of the best alpine, traditional, and sport climbs in Tuolumne Meadows. Each climb offers an elegant line, views of the park, exceptional rock quality, and fascinating histories. Most climbs are 5.5-5.10 with solid protection. Negotiations on a Free Trade Area of the Americas (FTAA) began in 1998. This study examines the prospects for the FTAA in light of economic and political turmoil in Latin America and the continuing impasse of US "fast track" authority. It also evaluates progress in the trade talks, challenges of the Quebec Summit in April 2001, and proposals for accelerating the target date of January 2005 for concluding negotiations.
