**Weiner & Levitt's Pediatric Neurology Jan 19
2022 Part of the House Officer Series, Weiner
& Levitt's Pediatric Neurology, Fourth Edition
has been extensively reorganized, thoroughly
updated, and includes many algorithms and
tables. The new structure presents the book in
six sections, and is consistent with the ways
in which clinicians approach their patients.
The first section offers introductory chapters
under the heading of evaluation, and includes
neurologic history, neuro exam, and
localization. The bulk of the material is in
two sections and covers common complaints and
specific diseases, while the remaining
sections cover drugs and diagnostic and
neuropsychological tests.**

its Seventh Edition, this House Officer Series volume will remain a best-seller among medical students in psychiatry clerkships, psychiatric residents, other mental health professionals, and primary care physicians. This succinctly written pocket-sized textbook provides the key information readers need to succeed in rounds and pass board exams. Chapters provide complete, up-to-the-minute coverage of all major disorders, psychotherapies, and biological therapies. Diagnostic discussions are aligned with DSM-IV-TR and treatment recommendations are given in stepwise fashion. This edition describes several new disorders, provides greater coverage of psychotherapies, offers up-to-date information on psychopharmacology, and includes contemporary neuroscience and molecular genetics.

With hospital medicine growing rapidly in both scale and complexity, the learning curve for students is steeper, while experienced physicians are often called upon to act as mentors and caregivers in areas outside their primary fields of expertise. *Becoming a Consummate Clinician*, an exciting new book in the series *Hospital Medicine: Current Concepts*, describes in practical terms how clinicians and students can think more critically and act more insightfully in this era of information expansion and time compression. Developed for hospital-based clinicians and physicians-in-training, the book provides a road map for navigating key challenges in real-life medical practice related to assessing, integrating, and presenting clinical information. Clearly formatted and easily accessible, the book: Fully integrates and emphasizes error avoidance and reduction Highlights uses and limitations of algorithmic and evidence-based medicine in medical decision-making Details effective strategies for looking and “re-looking” at biomedical data Explains essential do’s and don’ts of medical practice, from patient history and exam to differential diagnoses Describes best practices and

pitfalls of gathering, processing, and communicating medical information Presents strategies for attending physicians to develop the critical thinking skills of their trainees Featuring real-world clinical examples, this concise, down-to-earth text is written to help both practitioners and students improve their overall clinical performance, and learn to communicate effectively with members of the caregiving team.

Gastroenterology for the House Officer Dec 06 2020

National Library of Medicine Current Catalog Jun 11 2021

Family Medicine Feb 26 2020 Each of the National Medical Series Questions and Answers for Independent Study (NMS Q&A) titles are an effective supplement for learning and review. These titles have been designed with the medical student in mind. NMS Q&A: Family Medicine is designed specifically for third and fourth year medical students during the Family Medicine rotation. This book contains about 500 review questions, answers, and explanations typical of those found on the USMLE Step 2 examination. The vast majority of these questions are written in the clinically based vignette format. Well-referenced and clearly organized, the titles found in the NMS Q&A series effectively assist medical students

wishing to master large amounts of information in a short amount of time and review specific topics quickly and easily.

Parliamentary Debates (Hansard), Official Report, 6th Series Apr 29 2020 Contains debates from the 2d session of the 48th Parliament through the session of the Parliament.

Psychiatry for the House Officer Mar 01 2023
A standard outline with a useful bibliography.
House Officer Jul 25 2022 This book is about how young physicians experience training as medical specialists. Much attention is now being drawn to the stresses of post graduate medical education, their potential negative impact on the quality of patient care, and the manner in which these stresses influence the professional and personal development of the physicians involved. The entire focus of this book is on the firsthand experience of 52 such physicians enrolled in 16 different medical specialty training programs. Because the evaluation of stress is largely a subjective one, I have elected through the perception and the cognitive pro to approach the question cesses of the trainees themselves. THE DOCTORS The "subjects" of this work are 52 young physicians who volunteered to be interviewed confidentially and anonymously during the 1986-1987 academic

year. They represent the specialties of anesthesiology, clinical pathology, dermatology, emergency medicine, family practice, general surgery, internal medicine, neurology, neurosurgery, obstetrics and gynecology, ophthalmology, orthopedic surgery, otolaryngology, pediatrics, psychiatry, and radiology.

Urology House Officer Series May 03 2023 The fifth edition of Urology in the House Officer Series creates a concise source of clinical information on urology for medical students and residents that can be easily carried for quick reference. Concentrating on the non-surgical aspects of urology, this pocket guide provides the information needed for making a diagnosis and deciding on the proper treatment course. This compact book is separated into two sections, the first, entitled Chief Presentations, covers the most common presenting complaints in the general urology clinic. The second section, entitled, Selected Topics, covers the major areas of urology in greater detail. Covering all diagnostic and treatment approaches for all urologic diseases, this pocket guide is also ideal for family practitioners, physician assistants, nurse practitioners, and emergency room

physicians who wish to quickly review a specific urologic presentation.
