The Black Church - Where Women Pray and Men Prey Dec 26 2019 Black churches were once the

cornerstone of the Black community and looked at as a source of guidance and strength. Indeed, the war for freedom waged in the 1960s battle for civil rights was born within the walls of Black churches. But that was then, and this is now. The pews of African American churches are filled with women, many of them lonely single mothers. These women come to church to be spiritually uplifted, but that is not what happens. Instead, twisted Scripture is used by unscrupulous men to manipulate and control them. Church is where black women are being preyed upon sexually, emotionally and financially. Are most pastors in black churches nothing but pimps smiling from the pulpit instead of from a Cadillac? Find out more at [www.womenpraymenprey.com](http://www.womenpraymenprey.com).

**Men as Managers, Managers as Men** Mar 21 2022 Most managers in most organizations in most countries are men. This book is the first international work to address the relationships between men, masculinities and managements. It examines the processes through which gendered managerial structures, cultures and practices are reproduced. Exploring top and middle managers, entrepreneurs, corporate executives, and public and private sector managers, the book breaks new ground by critically examining the gendered power processes that have largely been assumed and ignored by conventional organizational and management theory. As well as providing new insights into how managements and masculinities may reinforce each other, this challenging book ultimately explores the ways in which both management and men might be changed, even transformed.

**Men, Masculinity and the Media** Feb 26 2020 Although studies of men and masculinity have gained momentum, little has been published that focuses on the media and their relationship to men as men. Men, Masculinity and the Media addresses this shortcoming. Scholars from across the social sciences investigate past media research on men and masculinity. They also examine how the media serve to construct masculinities, how men and their relationships have been depicted and how men

respond to media images. From comic books and rock music to film and television, this groundbreaking volume scrutinizes the interrelationship among men, the media and masculinity.

**The Psychology of Men in Context** Dec 06 2020 What does it really mean to say that boys will be boys, men are from Mars, or that contemporary men are in crisis? Does modern psychology support or refute these notions? And how is psychological theory and research about boys and men used in society? The Psychology of Men in Context is an essential introduction to the field which challenges readers to examine psychological research on men, masculinity, and gender, and consider its impact on daily life, through everyday speech, popular media, political rhetoric, and more. The authors offer a range of lenses for studying masculinity, including biology, social learning, social constructionism, feminism, and intersectionality. Demonstrating how these frameworks can be used to understand research on pressing topics such as violence, health, and relationships, the book also considers masculinity in its broader philosophical and historical contexts, equipping readers with the tools needed to connect the psychology of men with other areas of social science. Exercises and prompts to help students relate the research to their own lives are included throughout. Designed for students at undergraduate and graduate level, but suitable for anyone curious about understanding the field from a more critical social scientific perspective, The Psychology of Men in Context is a valuable introduction to the history, current scholarship, and social implications of the psychological study of men and masculinity.

**Gods and Men (Ruins of the Earth Series Book 2)** Jan 25 2020 Humans are herded like sheep for the slaughter. And their only hope for survival lies with a team who just left the planet. Following their successful mission to destroy the slaver ring in New York City, Wic and the members of Phantom Team pass through the Antarctic's origin ring and find themselves deep in the heart of the

Androchidan Empire. But as the scope of the alien specie's operation becomes apparent, Phantom Team realizes they can't standby as humanity is culled into submission. Efforts must be made to slow the enemy's progress, if not stop it altogether. Under Wic's leadership, the team devises a plan to infiltrate and neutralize part of the Androchidan's operation. Allies are made, and resources are acquired. But when enemy spies find evidence of collusion, it is only a matter for time before the Phantoms' hopes of thwarting the enemy are dashed. Will Wic and his elite team of warriors succeed in reversing the tide of the Androchidan invasion? Or will they succumb to the unrelenting power of the most notorious slaver operation in the galaxy? Join bestselling authors Christopher Hopper and J.N. Chaney as the Ruins of the Earth hit series continues with Book 2: Gods and Men. Read what fans call "the best military sci-fi of the year," and "Galaxy's Edge meets Expeditionary Force."

Of War and Men Jun 23 2022 Fathers in the fifties tend to be portrayed as wise and genial pipe-smokers or distant, emotionless patriarchs. This common but limited stereotype obscures the remarkable diversity of their experiences and those of their children. To uncover the real story of fatherhood during this transformative era, Ralph LaRossa takes the long view—from the attack on Pearl Harbor up to the election of John F. Kennedy—revealing the myriad ways that World War II and its aftermath shaped men. Offering compelling accounts of people both ordinary and extraordinary, *Of War and Men* digs deep into the terrain of fatherhood. LaRossa explores the nature and aftereffects of combat, the culture of fear during the Cold War, the ways that fear altered the lives of racial and sexual minorities, and how the civil rights movement affected families both black and white. Overturning some calcified myths, LaRossa also analyzes the impact of suburbanization on fathers and their kids, discovering that living in the suburbs often strengthened their bond. And finally, looking beyond the idealized dad enshrined in TV sitcoms, *Of War and Men* explores the

brutal side of family life in the postwar years. LaRossa's richly researched book dismantles stereotypes while offering up a fascinating and incisive chronicle of fatherhood in all its complexity.

**Men's Health** Dec 18 2021 Men's Health magazine contains daily tips and articles on fitness, nutrition, relationships, sex, career and lifestyle.

**Men's Health** Apr 29 2020 Men's Health magazine contains daily tips and articles on fitness, nutrition, relationships, sex, career and lifestyle.

*Oranges Are Not The Only Fruit* Oct 16 2021 'Like most people I lived for a long time with my mother and father. My father liked to watch the wrestling, my mother liked to wrestle; it didn't matter what' This is the story of Jeanette, adopted and brought up by her mother as one of God's elect. Zealous and passionate, she seems destined for life as a missionary, but then she falls for one of her converts. At sixteen, Jeanette decides to leave the church, her home and her family, for the young woman she loves. Innovative, punchy and tender, *Oranges Are Not the Only Fruit* is a few days ride into the bizarre outposts of religious excess and human obsession. 'Witty... extraordinary and exhilarating' *The Times* 'She is a master of her material, a writer in whom great talent abides' *Vanity Fair* 'Many consider her to be the best living writer in this language... In her hands, words are fluid, radiant, humming' *Evening Standard* 'A novel that deserves revisiting' *Observer* 'A wonderful rites-of-passage novel' Mariella Frostrup

*The Book of Man* May 03 2023 WHAT IT MEANS TO BE A MAN Raising up men has never been easy, but today it seems particularly tough. The young and old need heroes to embody the eternal qualities of manhood: honor, duty, valor, and integrity. In *The Book of Man*, William J. Bennett points the way, offering a positive, encouraging, uplifting, realizable idea of manhood, redolent of history and human nature, and practical for contemporary life. Using profiles, stories, letters, poems,

essays, historical vignettes, and myths to bring his subject to life, *The Book of Man* defines what a man should be, how he should live, and to what he should aspire in several key areas of life: war, work, leisure, and more. "Whether we take up the sword, the plow, the ball, the gavel, our children, or our Bibles," says Bennett, "we must always do it like the men we are called to be." *The Book of Man* shows how.

*Men Are from Mars, Women Are from Venus* Apr 21 2022 Rediscover the most famous relationship book ever published Once upon a time Martians and Venusians met, fell in love, and had happy relationships together because they respected and accepted their differences. Then they came to Earth and amnesia set in: they forgot they were from different planets. Based on years of successful counseling of couples and individuals, *Men Are from Mars, Women Are from Venus* has helped millions of couples transform their relationships. Now viewed as a modern classic, this phenomenal book has helped men and women realize how different they can be in their communication styles, their emotional needs, and their modes of behavior—and offers the secrets of communicating without conflicts, allowing couples to give intimacy every chance to grow.

*What Do Men Want?* Aug 14 2021 From the acclaimed philosopher and author of *One-Dimensional Woman*, a bold, playful and open-minded exploration of the role of men in the twenty-first century Something is definitely up with men. From millions online who engage with the mansphere to the #metoo backlash, from Men's Rights activists and incels to spiralling suicide rates, it's easy to see that, while men still rule the world, masculinity is in crisis. How can men and women live together in a world where capitalism and consumerism has replaced the values - family, religion, service and honour - that used to give our lives meaning? Feminism has gone some way towards dismantling the patriarchy, but how can we hold on to the best aspects of our metaphorical Father? With

illuminating writing from an original, big-picture perspective, Nina Power unlocks the secrets hidden in our culture to enable men and women to practice playfulness and forgiveness, and reach a true mutual understanding and a lifetime of love.

**Men's Health** Nov 16 2021 Men's Health magazine contains daily tips and articles on fitness, nutrition, relationships, sex, career and lifestyle.

*Men and Depression* Mar 09 2021 *Men and Depression: Clinical and Empirical Perspectives* is the only book currently available that integrates psychological theories and the latest research findings with clinical recommendations for working with men who are suffering from depression. This volume covers a wide range of topics and issues that relate to men and depression, including: assessment of male depression; statistics on depression in men; theories to explain depression in men; treating depression in men with both pharmacotherapy and psychotherapy; the interrelation of grief, loss, trauma, and depression in men; the problem of suicide and how to assess and treat suicide risk in men; and prospects for future work in this important area. This is a unique reference and practical guide that integrates and evaluates research and clinical practice relating to the diagnosis and treatment of men with depression. The volume explores why men are underdiagnosed and undertreated for mood disorders and provides the clinician with practical guidelines for conceptualizing a treatment plan for men with depression. Only book on the current market to address the complex nature of male depression Integrates the latest research findings and clinical innovations Offers guidelines for the assessment, diagnosis, and treatment of male depression Addresses pharmacological treatments and their implications Extensively illustrated with case material and clinical inquiries

Women and Men in Management Apr 09 2021 Table of contents.

Women and Men Feb 05 2021 Beginning in childbirth and entered like a multiple dwelling in motion, *Women and Men* embraces and anatomizes the 1970s in New York - from experiments in the chaotic relations between the sexes to the flux of the city itself. Yet through an intricate overlay of scenes, voices, fact, and myth, this expanding fiction finds its way also across continents and into earlier and future times and indeed the Earth, to reveal connections between the most disparate lives and systems of feeling and power. At its breathing heart, it plots the fuguelike and fieldlike densities of late-twentieth-century life. McElroy rests a global vision on two people, apartment-house neighbors who never quite meet. Except, that is, in the population of others whose histories cross theirs believers and skeptics; lovers, friends, and hermits; children, parents, grandparents, avatars, and, apparently, angels. For *Women and Men* shows how the families through which we pass let one person's experience belong to that of many, so that we throw light on each other as if these kinships were refracted lives so real as to be reincarnate. A mirror of manners, the book is also a meditation on the languages, rich, ludicrous, exact, and also American, in which we try to grasp the world we're in. Along the kindred axes of separation and intimacy *Women and Men* extends the great line of twentieth-century innovative fiction.

*You Just Don't Understand* Jun 11 2021 From the author of New York Times bestseller *You're Wearing That?* this bestselling classic work draws upon groundbreaking research by an acclaimed sociolinguist to show that women and men live in different worlds, made of different words. Women and men live in different worlds...made of different words. Spending nearly four years on the New York Times bestseller list, including eight months at number one, *You Just Don't Understand* is a true cultural and intellectual phenomenon. This is the book that brought gender differences in ways of speaking to the forefront of public awareness. With a rare combination of scientific insight and

delightful, humorous writing, Tannen shows why women and men can walk away from the same conversation with completely different impressions of what was said. Studded with lively and entertaining examples of real conversations, this book gives you the tools to understand what went wrong -- and to find a common language in which to strengthen relationships at work and at home. A classic in the field of interpersonal relations, this book will change forever the way you approach conversations.

**Self-Made Man** Jul 01 2020 A journalist's provocative and spellbinding account of her eighteen months spent disguised as a man. Norah Vincent became an instant media sensation with the publication of *Self-Made Man*, her take on just how hard it is to be a man, even in a man's world. Following in the tradition of John Howard Griffin (*Black Like Me*), Vincent spent a year and a half disguised as her male alter ego, Ned, exploring what men are like when women aren't around. As Ned, she joined a bowling team, took a high-octane sales job, went on dates with women (and men), visited strip clubs, and even managed to infiltrate a monastery and a men's therapy group. At once thought-provoking and pure fun to read, *Self-Made Man* is a sympathetic and thrilling tour de force of immersion journalism.

**Feminism and Men** Dec 30 2022 Feminism has changed the world; it is radically reshaping women's lives. But what about men? They still hold most of the power in the economy, in government, in religions, in the media and often in the family too. At the same time, many men are questioning traditional views about what it means to be a man. Others resent the gains women have made and want to turn back the clock. Nikki van der Gaag asks the question: how might feminism improve the lives of men as well as women? And is there a place for men in the feminist story?

**The End of Men** Mar 01 2023 What Betty Friedan, Simone de Beauvoir, Susan Faludi and Naomi

Wolf did for feminism, senior editor of The Atlantic Hanna Rosin does for a new generation of women: an explosive new argument for why women are winning the battle of the sexes and why men are no longer top dog. Women are no longer catching up with men. By almost every measure, they are out-performing them. We are at an unprecedented moment in history. In 2010, for the first time, the balance of the British workforce tipped towards women, who now hold around half of the nation's jobs. In the US, meanwhile, for every two men that receive a BA, three women will achieve the same. Not only do women now dominate colleges and professional schools on every continent except Africa, young single women in the US now earn more than their male counterparts, and more than a third of mothers in the UK and the US are their family's main breadwinner. The tides have turned. The 'age of testosterone' is decisively over. At almost every level of society women are proving themselves far more adaptable and suited to a job market that rewards people skills and intelligence, and a world that has a dramatically diminishing need for traditional male muscle. In this landmark, once-in-a-generation book, Hanna Rosin reveals how this new world order came to be and its profound implications for marriage, sex, children, work, families and society. Unhampered by old assumptions and ideologies and drawing on examples from across the globe, *The End of Men* helps us see how both men and women can - and must - adapt for a radically new era. 'In this bold and inspired dispatch, Rosin upends the common platitudes of contemporary sexual politics with a deeply reported meditation from the unexpected frontiers of our rapidly changing culture' Katie Roiphe, author of *The Morning After* and *Uncommon Arrangements* 'The End of Men describes a new paradigm that can, finally, take us beyond 'winners' and 'losers' in an endless 'gender war.' What a relief! Ultimately, Rosin's vision is both hope-filled and creative, allowing both sexes to become far more authentic: as workers, partners, parents...and people' Peggy Orenstein, author of

Cinderella Ate My Daughter and Schoolgirls Hanna Rosin is a senior editor at The Atlantic magazine and a founder and co-editor of DoubleX, Slate's women's section. She has written for the New Yorker, The New York Times, GQ, and The New Republic, and for a number of years covered politics and religion for the Washington Post. In 2009 she was nominated for a National Magazine Award, and in 2010 she won one. She is the author of a previous book, God's Harvard: A Christian College on a Mission to Save America. Rosin lives in Washington, DC, with her husband, Slate editor David Plotz, and their three children.

Men's Health Jan 07 2021 Men's Health magazine contains daily tips and articles on fitness, nutrition, relationships, sex, career and lifestyle.

**Women and Men in the Qur'an** Mar 28 2020 This book distinguishes Islam as a spiritual message from the sociopolitical context of its revelation. While the sacred text of the Quran reveals a clear empowerment of women and equality of believers, such spirit is barely reflected in the interpretations. Trapped between Western rhetoric that portrays them as submissive figures in desperate need of liberation, and centuries-old, parochial interpretations that have almost become part of the "sacred," Muslim women are pressured and profoundly misunderstood. Asma Lamrabet laments this state of affairs and the inclination of both Muslims and non-Muslims to readily embrace flawed human interpretations that devalue women rather than remaining faithful to the meaning of the Sacred Text. Full of insight, this study carefully reads the Qur'an to arrive at its deeper spiritual teachings.

**Of Beards and Men** Aug 26 2022 Beards—they're all the rage these days. Take a look around: from hip urbanites to rustic outdoorsmen, well-groomed metrosexuals to post-season hockey players, facial hair is everywhere. The New York Times traces this hairy trend to Big Apple hipsters circa

2005 and reports that today some New Yorkers pay thousands of dollars for facial hair transplants to disguise patchy, juvenile beards. And in 2014, blogger Nicki Daniels excoriated bearded hipsters for turning a symbol of manliness and power into a flimsy fashion statement. The beard, she said, has turned into the padded bra of masculinity. *Of Beards and Men* makes the case that today's bearded renaissance is part of a centuries-long cycle in which facial hairstyles have varied in response to changing ideals of masculinity. Christopher Oldstone-Moore explains that the clean-shaven face has been the default style throughout Western history—see Alexander the Great's beardless face, for example, as the Greek heroic ideal. But the primacy of razors has been challenged over the years by four great bearded movements, beginning with Hadrian in the second century and stretching to today's bristled resurgence. The clean-shaven face today, Oldstone-Moore says, has come to signify a virtuous and sociable man, whereas the beard marks someone as self-reliant and unconventional. History, then, has established specific meanings for facial hair, which both inspire and constrain a man's choices in how he presents himself to the world. This fascinating and erudite history of facial hair cracks the masculine hair code, shedding light on the choices men make as they shape the hair on their faces. Oldstone-Moore adeptly lays to rest common misperceptions about beards and vividly illustrates the connection between grooming, identity, culture, and masculinity. To a surprising degree, we find, the history of men is written on their faces.

**Eating Disorders in Boys and Men** Oct 04 2020 Boys and men with eating disorders remain a population that is under-recognized and underserved within both research and clinical contexts. It has been well documented that boys and men with eating disorders often exhibit distinct clinical presentations with regard to core cognitive (e.g., body image) and behavioral (e.g., pathological exercise) symptoms. Such differences, along with the greater likelihood of muscularity-oriented

disordered eating among boys and men, emphasize the importance of understanding and recognizing unique factors of clinical relevance within this population. This book reviews the most up-to-date research findings on eating disorders among boys and men, with an emphasis on clinically salient information across multiple domains. Five sections are included, with the first focused on a historical overview and the unique nature and prevalence of specific forms of eating disorder symptoms and body image concerns in boys and men. The second section details population-specific considerations for the diagnosis and assessment of eating disorders, body image concerns, and muscle dysmorphia in boys and men. The third section identifies unique concerns regarding medical complications and care in this population, including medical complications of appearance and performance-enhancing substances. The fourth section reviews current findings and considerations for eating disorder prevention and intervention for boys and men. The fifth section of the book focuses on specific populations (e.g., sexual minorities, gender minorities) and addresses sociocultural factors of particular relevance for eating disorders in boys and men (e.g., racial and ethnic considerations, cross-cultural considerations). The book then concludes with a concise overview of key takeaways and a focused summary of current evidence gaps and unanswered questions, as well as directions for future research. Written by experts in the field, *Eating Disorders in Boys and Men* is a comprehensive guide to an under-reported topic. It is an excellent resource for primary care physicians, adolescent medicine physicians, pediatricians, psychologists, clinical social workers, and any other professional conducting research with or providing clinical care for boys and men with eating disorders. It is also an excellent resource for students, residents, fellows, and trainees across various disciplines.

Modernity and the Unmaking of Men Sep 14 2021 Responding to the renewed emphasis on the

significance of village studies, this book focuses on aging bachelorhood as a site of intolerable angst when faced with rural depopulation and social precarity. Based on ongoing ethnographic fieldwork in contemporary Macedonian society, the book explores the intersections between modernity, kinship and gender. It argues that as a critical consequence of demographic rupture, changing values and societal shifts, aging bachelorhood illuminates and challenges conceptualizations of performativity and social presence.

**Of Dice and Men** Jan 19 2022 This definitive book on Dungeons & Dragons, one of the original ultimate nerd subcultures, traces its origins on the battlefields of ancient Europe through the hysteria that linked it to satanic rituals and teen suicides, and to its apotheosis as father of the modern video game industry.

**Women and Men at Work** Nov 28 2022 The Second Edition of this best selling book provides a comprehensive examination of the role that gender plays in work environments. This book differs from others by comparing women's and men's work status, addressing contemporary issues within a historical perspective, incorporating comparative material from other countries, recognizing differences in the experiences of women and men from different racial and ethnic backgrounds. Relying on both qualitative and quantitative data, the authors seek to link social scientific ideas about workers' lives, sex inequality, and gender to the real-world workplace. This new edition contains updated statistics, timely cartoons, and presents new scholarship in the field. It also provides a renewed focus on reasons for variability in inequality across workplaces. In sum, the second edition of Women and Men at Work presents a contemporary perspective to the field, with relevant comparative and historical insights that will draw readers in and connect them to the wider concern of making sense of our dramatically changing world.

**Of Ants and Men** Jan 31 2023 Why do things go wrong? Why, despite all the planning and care in the world, do things go from bad to worse? This book argues that it is because we are like the ants. Just as ants create an anthill without being aware of it, unintended side effects of human activity create all manner of social trends and crises. The book traces the way these trends emerge and the role they play in some of the major issues of our time. One of the greatest challenges today is the complexity of our social and economic systems. Every action has side effects that people often ignore or fail to see. The book examines the ways in which limitations in our thinking and behaviour lead to unintended side effects. It looks at the role played by complex networks of interactions. Finally, it looks at the way side effects of new technologies, especially computers and communication, have created an Information Revolution, the full repercussions of which are yet to be seen. In our race to create new technologies and sustain indefinite economic growth, we are at best dimly aware of the ways in which we are transforming society and threatening our environment.

Iron John May 11 2021 "In this timeless and deeply learned classic, poet and translator Robert Bly offers nothing less than a new vision of what it means to be a man. Bly's vision is based on his ongoing work with men, as well as on reflections on his own life. He addresses the devastating effects of remote fathers and mourns the disappearance of male initiation rites in our culture. Finding rich meaning in ancient stories and legends, Bly uses the Grimm fairy tale "Iron John"--In which a mentor or "Wild Man" guides a young man through eight stages of male growth--to remind us of ways of knowing long forgotten, images of deep and vigorous masculinity centered in feeling and protective of the young. At once down-to-earth and elevated, combining the grandeur of myth with the practical and often painful lessons of our own histories, Iron John is an astonishing work that will continue to guide and inspire men-and women-for years to come"--

**Unhidden** Feb 17 2022 "Traditionally, men have held the "privileged" position; however, two generations of societal change has dramatically changed the playing field, at the expense of the Man. The effect is that men are lost, causing an increase in aggression, confusion and apathy. Worse, they have withdrawn from society because it's not deemed OK for men to express their feelings and doubt. Men want to love and provide, but feel disconnected from their true purpose. UnHidden is a pragmatic guide that compiles 18 years of experience and tens of thousands of client sessions into a simple step-by-step blueprint for turning your life around. This book is Man's key to evolving from your current status quo to a true, authentic man in today's chaotic world. ."-

*The Fashion Resource Book* Jul 25 2022 An essential fashion reference for students and professionals alike, organized in a series of detailed case studies Fashion design is a process of investigating, understanding context, and constantly questioning what you are doing and why. This comprehensive survey presents the work of a wide range of modern and contemporary designers and reveals the innumerable areas of inspiration and research on which they've drawn, from historical examples such as Christian Dior's "New Look" to traditional textiles from around the world, as seen in John Galliano's Peruvian-inspired collection of 2005. The first part of the book investigates the research process in the work of designers such as Paul Smith, Comme des Garçons, and Anna Sui. The second section covers subjects like vintage and retro, the use of archives, and the influence of art movements such as op art and surrealism. The third part presents case studies of world-famous designers: Jean Paul Gaultier, Christian Dior, Alexander McQueen, and Coco Chanel, to name but a few.

**Of Mice and Men** Apr 02 2023 Tells a story about the strange relationship of two migrant workers who are able to realize their dreams of an easy life until one of them succumbs to his weakness for

soft, helpless creatures and strangles a farmer's wife.

**The Will to Change** Aug 02 2020 Everyone needs to love and be loved—even men. But to know love, men must be able to look at the ways that patriarchal culture keeps them from knowing themselves, from being in touch with their feelings, from loving. In *The Will to Change*, bell hooks gets to the heart of the matter and shows men how to express the emotions that are a fundamental part of who they are—whatever their age, marital status, ethnicity, or sexual orientation. But toxic masculinity punishes those fundamental emotions, and it's so deeply ingrained in our society that it's hard for men to not comply—but hooks wants to help change that. With trademark candor and fierce intelligence, hooks addresses the most common concerns of men, such as fear of intimacy and loss of their patriarchal place in society, in new and challenging ways. She believes men can find the way to spiritual unity by getting back in touch with the emotionally open part of themselves—and lay claim to the rich and rewarding inner lives that have historically been the exclusive province of women. A brave and astonishing work, *The Will to Change* is designed to help men reclaim the best part of themselves.

*The Men We Need* Jul 13 2021 The world needs real men, real bad. And there are all sorts of conflicting ideas and messages about what a "real man" is (and is not). Is a real man one who hunts, loves sports, grills meat, fixes cars, and climbs mountains? Sure, sometimes. But that's not really the point of being a man and it's not the purpose for which men were made. Into our cultural confusion, Brant Hansen paints a refreshingly specific, compelling picture of what men are made to be: "Keepers of the Garden." Protectors and defenders. He calls for men of all interests and backgrounds (including "avid indoorsmen" like himself) to be ambitious about the right things and to see themselves as defenders of the vulnerable, with whatever resources they have. Using short

chapters loaded with must-have wisdom and Brant's signature humor, *The Men We Need* explains the essence of masculinity in a fresh, thoughtful, and entertaining way that will inspire any man who dares to read it.

**The Men and the Boys** Oct 28 2022 In recent years, questions about men and boys have aroused remarkable media interest, public concern and controversy. Across the world, health services are noticing the relevance of men's gender to problems as diverse as road accidents, diet and sexually transmitted disease. Teachers are increasingly preoccupied with the poor educational performance of boys, and criminologists have begun to explore why men and boys continue to dominate the crime statistics. In this timely new volume, one of the world's leading authorities on masculinity helps us to understand these developments, and make sense of the multiplying issues about men and boys. Five years on from the publication of the seminal study *Masculinities*, this book reflects on the growing social scientific research in this area. Connell assesses its strengths and weaknesses and explores its implications for contemporary problems from boys' education and men's health to international peacemaking. Written in a lively and accessible way, this book will be essential reading for all students of sociology, politics and gender studies, as well as anyone interested in the future of gender relations.

**Men's Health** Sep 02 2020 Men's Health magazine contains daily tips and articles on fitness, nutrition, relationships, sex, career and lifestyle.

The Gender Line Nov 04 2020 With its focus particularly on men, *The Gender Line* offers an insightful overview of the construction of gender and the damaging effects of its stereotypes. Levit analyzes the ways in which law legitimizes the social segregation of the sexes through legal decisions regarding custody, employment, education, sexual harassment, and criminal law. In so

doing, she illustrates the ways in which men's and women's oppressions are intertwined and how law molds the very definition of masculinity.

*The Other Half of Gender* May 30 2020 This book is an attempt to bring the gender and development debate full circle—from a much-needed focus on empowering women to a more comprehensive gender framework that considers gender as a system that affects both women and men. The chapters in this book explore definitions of masculinity and male identities in a variety of social contexts, drawing from experiences in Latin America, the Caribbean and sub-Saharan Africa. It draws on a slowly emerging realization that attaining the vision of gender equality will be difficult, if not impossible, without changing the ways in which masculinities are defined and acted upon. Although changing male gender norms will be a difficult and slow process, we must begin by understanding how versions of masculinities are defined and acted upon.

*Of Ice and Men* Sep 26 2022 An exploration of humanity's relationship with ice since the dawn of civilization, *Of Ice and Men* reminds us that only by understanding this unique substance can we save the ice on our planet—and perhaps ourselves. Ice tells a story. It writes it in rock. It lays it down, snowfall by snowfall at the ends of the earth where we may read it like the rings on a tree. It tells our planet's geological and climatological tale. Ice tells another story too: a story about us. It is a tale packed with swash-buckling adventure and improbable invention, peopled with driven, eccentric, often brilliant characters. It tells how our species has used ice to reshape the world according to our needs and our desires: how we have survived it, harvested it, traded it, bent science to our will to make it—and how in doing so we have created globe-spanning infrastructures that are entirely dependent upon it. And even after we have done all that, we take ice so much for granted that we barely notice it. Ice has supercharged the modern world. It has allowed us to feed ourselves

and cure ourselves in ways unimaginable two hundred years ago. It has enabled the global population to rise from less than 1 billion to nearly 7½ billion—which just happens to cover the same period of time as humanity has harvested, manufactured, and distributed ice on an industrial scale. And yet the roots of our fascination with ice and its properties run much deeper than the recent past.

**Of Mice and Men and The Moon Is Down** May 23 2022 Two devastating short novels adapted for the stage by Steinbeck himself A Penguin Classic This Penguin Classics edition celebrates Steinbeck's dramatic adaptations of his most powerful short novels, *Of Mice and Men* and *The Moon Is Down*, featuring a foreword by award-winning actor James Earl Jones. *Of Mice and Men* represents an experiment in form – as Steinbeck put it, “a kind of playable novel, written in novel form but so scened and set that it can be played as it stands.” A rarity in American letters, it achieved remarkable success as a novel, a Broadway play, and three acclaimed films. *Of Mice and Men* received the New York Drama Critics' Circle Award for Best Play in 1937-1938. A number of acclaimed actors have interpreted the iconic roles of George and Lennie for stage and screen, including James Earl Jones, John Malkovich and Gary Sinise. *The Moon Is Down* uncovers profound, often unsettling truths about war and human nature. It tells the story of a peaceable town taken by enemy troops, and had an extraordinary impact as Allied propaganda in Nazi-occupied Europe. This Penguin Classics edition of the theatrical adaptations of Steinbeck's two classic short novels is essential to actors, playwrights, filmmakers and directors studying the dramatic work of the Nobel Prize winning author of *The Grapes of Wrath* and *East of Eden*. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout

history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.
