Intentional Healing is a story of transformation. It is the story of a conservative Western-educated woman confronted with debilitating and bizarre symptoms that no one can explain. No one, that is, until she meets a diagnostic detective, Dr. Leo Galland in New York City, who refers her to a pioneer in environmental medicine, Dr. William J. Rea, in Dallas, Texas. He, in turn, refers her to Deborah Singleton, founder and director of A Healing Place, and her healing team, who introduce her to the possibility of healing from within. With their guidance, she begins the process of expanding her consciousness and understanding the real roots of illness. Her journey, which included initiation into Reiki channeling and healing from Navajo hataali, takes her from dark nights of the soul to not only freedom from illness but also the discovery of her own healing abilities. In her energy practice in Santa Fe, New Mexico, she now teaches others the healing approaches that brought her to wellness and spiritual growth. Explores the human psyche and the specific techniques through which one can achieve the highest possible levels of consciousness. We are powerful in our own right and we have the power to control what exists in our lives--seen and unseen." Dr. David Howard, The Path to Higher Consciousness David Howard, PhD, is a Metaphysical Guide and owner of Transcendent Living, which offers guidance through metaphysical concepts and meditation to help people transform their lives. He continues his research into higher consciousness and began writing to share the amazing results of existing in a state of higher awareness--a state of mind that connects us to the Source of all that is. This book emerges from the unique 500,000 year-old wisdoms of an ancient mystery school and invites you to be an explorer of your Three Levels of Consciousness? your Conscious, Subconscious and High Selves. If peace and contentment is your goal, then click the "add to cart" button to get started! It is an outstanding book from both the scientific and spiritual points of view. It is the unique record of the pioneering experiments which presents clear, electrophysiological evidence of the existence of the network of chakras and nadis which form the infrastructure of the subtle energies existing in the pranic and psychic dimensions, which underlie and activate the physical, material body of man. The experiments in the book successfully integrate the subjective and objective dimensions of knowledge and will serve as guideposts and blueprints for experiments in the years ahead. The chakras and other components of the human energy field were largely brought to the attention of the Western world by clairvoyant Charles W. Leadbeater. His pioneering work is discussed in detail in this fascinating exploration of the subtle body, along with that of other respected seers and yogis. "This book represents a monumental effort to review and correlate much of the accumulated knowledge of the subtle energy systems...Such a book could only be written by a person who has had the life-long personal experiences which Dr Motoyama so generously shares with the reader. These experiences provide a step-by-step illustration of unfolding and expanding consciousness. The book is necessary reading for all serious students of the subject of consciousness." - George W. Meek

Looks at the structure and origins of the universe and discusses the role of the Kabbalistic principles of number and sound In this book, first published in 1962, Professor Hilton Hotema provides his insights into how we could all live longer by learning the body's simple requirements of breathing fresh air, avoiding animal flesh, banning any cooked food, and by gradually lessening the amount of food consumed. Hotema firmly believes that breathing fresh air and consuming organic fruits and natural organic liquids alone could extend our lives and also lays bare his secret that what kills at an early age is not the illusion of time, but rather overeating, breathing in toxic, unclean air, and elements such as electronic radiation, dirty electricity and medications. A must-read for any health-conscious individual. Looking at the act of giving as a way to bring greater happiness into the life of the giver as well as the receiver, this insightful exploration challenges contemporary concepts of service. Offering simple and practical techniques for open-minded volunteering, a wealth of quotes, narratives, and reflective pieces seek to motivate and inspire. Encouraging an attitude of selflessness with positive and timely action, this thought-provoking guide posits that serving is a gateway to higher consciousness. Comprised of brief, clear chapters, this perceptive meditation is easy to reference while attending the needs of others. Practice of Satsang is an invitation for Conscious Living. Written as 'Letters to my Grandchildren', the book shares personal short stories, quotes from the real-life protagonists of the stories, provocative questions and practices for your experimentation and play. The purpose is to deepen relationships with oneself and with one's family, friends, fellow - travellers, colleagues, clients and the communities one belongs to. 'Sat' means truth and 'Sanga' means company. Satsang is an old Sanskrit word meaning 'being with the truth', and 'gathering together to find the truth'. Usually, in my culture, it is interpreted to gather in the presence of a guru (Teacher), who would help to be with the truth. As I grew up, I realised that there are many gurus (teachers) in our lives who help us to be with the truth, with our truth. They come in unexpected relationships and situations as our own higher consciousness. The key is in my openness, perception and choice. Am I willing to recognise the teacher, the truth and times of sanga in my inner and outer worlds? Journey as you read this book, inwards to your own genius, wisdom, consciousness, bliss and truth. Come, let us exchange stories and practices and reflect together on fundamental questions, across generations and cultures. Whether you want quick tips to shift into higher vibration, or want to take a reflective journey along your spiritual path, this book provides the essential information you need. The author invites you to start your transformation today. Humanity is going through a rapid transformation. You may follow one of two paths: Be dragged through; stuck in overwhelmingly fearful and limiting beliefs, energy-draining thoughts, and painful feelings. OR Learn the tools that shift you into the higher-conscious life you've yearned for—where you experience improved health, connected and loving relationships, fulfilling work, and the knowledge that, no matter what happens around you, everything is ultimately right in your life! Dive into this book and discover:

- How vibrational energy can connect you to everything around you;
- How modifying your affirmations to bite-size, believable pieces helps prevent becoming overwhelmed;
- How to prevent leaking your energy and keep energy vampires from depleting your vitality;
- Tools to shift your energy almost instantaneously,
- Why consciously adopting these new behaviors now is vital as we approach 2012 and move toward the next age of human evolution.

To master ourselves and reach consciousness we must stabilize our emotions, handle adversity, and set boundaries. Once we understand everything happens in the process of evolution, we enter a state of resilience. Life is designed to work from inner to outer. The conscious mind comes up with ideas. When the emotions get involved from the subconscious, it moves the molecules out of the environment; reshaping one's life. It is only when outside forces come into the conscious mind it's difficult to shape our destiny. It causes a mental illness called neurosis when the brain works unconsciously; the body goes off autopilot. "What happened to me that early morning during the Christmas of 1937 changed the course of my life and outlook. I sat in a small room in a house on the outskirts of Jammu. I was meditating. Practice had accustomed me to sit in the same posture for hours without discomfort, and as I sat breathing slowly and rhythmically, my attention was drawn towards the crown of my head, contemplating an imaginary lotus in full bloom, radiating light. I sat unmoving and erect. My whole being was so engrossed in the contemplation of the lotus that for several minutes I lost touch with my body and surroundings. The only object of which I was aware was a lotus of brilliant colour, emitting rays of light. During a spell of intense concentration I suddenly felt a strange sensation below the base of the spine, at the place touching the seat, while I sat cross-legged on a folded blanket spread on the floor. The sensation was so extraordinary and pleasing that my attention was forcibly drawn towards it. My heart beat wildly, and I found it difficult to bring my attention to the required degree of fixity. The sensation extended upwards,

growing in intensity. Then, suddenly, with a roar like that of a waterfall, I felt a stream of liquid light entering my brain through the spinal cord. What had happened to me? Was I hallucinating? Or had I by some strange fate succeeded in experiencing the Transcendental? I had read glowing accounts, written by learned men, of great benefits resulting from concentration and of the miraculous powers acquired by yogis through meditation. Was there, after all, really some truth in the repeated claims of the sages and ascetics of India, made for thousands of years that it was possible to apprehend reality in this life if one practised meditation in a certain way? Little did I realize that from that day onwards I was never to be my old normal self again. I had unwittingly and without adequate knowledge, roused to activity the most powerful power in man. I had stepped unknowingly upon the key to the most guarded secret of the ancients, and thenceforth for a long time, I had to live suspended by a thread, swinging between life and death, between sanity and insanity, between lights and darkness, between heaven and earth." An extraordinary autobiographical account of what happens in the mind and body when Kundalini gets spontaneously aroused... one of the clearest journals documenting spiritual transformation and mental evolution onto a higher plane of consciousness. This Is A New Release Of The Original 1920 Edition. Bentov explains the Kabbalistic principles of number and sound, the meaning of cosmic symbols, and ultimately, shows that the universe and thought are inseparable. Negativity is rampant in the world, but it will most severely affect you when you harbor negative energies within. If you are clear on the inside, the outside can't touch you. Inner negativity is trapped in the subconscious and becomes known to us as painful feelings and emotions. Based on a unique synthesis of humanistic Western psychology and Eastern mindfulness principles, the DEEP CLEARING program activates your Feeling-Emotional Enlightenment Level, empowering you with a feeling-based, holistic, self-therapy process that will clear the subconscious, release negative energies, raise your vibration, and spontaneously shift you into authentic unconditional joyfulness and higher transcendental consciousness. Githa Ben-David presents a method for liberating the natural voice using regressive cell singing - one of the most direct ways to get in contact with the subconscious mind. This liberation has a healing effect on body and soul and can be experienced by every speaking person. With inspiration from India, Githa has put together a program for self-study, along with a practice instruction program that can be downloaded. Utilising this method you will 'sing yourself free from traumas that have their origin in this life, the womb or previous lifetimes. In regressive cell singing, The Note from Heaven is used as a tuning fork to retune cells to their former harmony. Any notes, sounds or outbursts that genuinely express The Note from Heaven can release blocked energy imprisoned in the Singer's body as trauma. The process starts a cell-dance, which reorganizes the body back to it's original balanced matrix. Transform your life through the power of sound. In the beginning there was sound. With sound everything was created. You are sound. Explains the phenomenon of shaktipat, the spiritual transmission of power from a teacher to a devotee • Shows how technology has eroded personal power and how insight and awareness can play a higher role in our lives • Reveals how insight is the vehicle for profound self-transformation Shakti is the creative force, the bonding power, that holds the universe together. Shaktipat is the moment when enlightenment is conferred upon a student instantaneously by his master's touch. The guru conferring shaktipat creates a bond of power in those who have accepted him or her as their teacher. In Spiritual Initiation and the Breakthrough of Consciousness Joseph Chilton Pearce describes his experience of shaktipat from his teacher Swami Muktananda. From this awakening Pearce experiences a dramatic shift of mind and comes to the realization that perception is reality and that insight is our only vehicle for profound self-transformation. Oneness with God is the birthright of every individual, though we are culturally vaccinated to resist experiencing this higher consciousness. Our search for objective truth has lead us not to wholeness, but instead to the belief that we have no bond to each other, to God, or to an inanimate, physical world. Our technology reduces our ability to experience revelation and leads us instead toward the chatter of confused thinking. The challenge faced by modern humanity, which is the challenge Muktananda gave to his students, is to passionately gather up the scattered fragments of our lives and channel them into the creative realm, where with insight or revelation we will be able to become more than ourselves. The Laws of Nature have been derived from ancient texts dating back thousands of years. They help to explain human behaviour by linking personal character with the 5 elements of nature. Now, these elements have been studied and interpreted to help you become a better you. A straight talking, honest application of the learning's of millennia, to the personal issues of today. Through the application of these techniques, you will achieve "Stillness", a state of mind in which time stops, you feel absolutely at one with whatever you are doing. A moment of pure inspiration and for the athlete, the leader, the entrepreneur or the artist, they are moments of absolute perfection. For most people this inspired state of mind is an accident, but by using the laws of nature you can achieve this deliberately. With these techniques, you'll feel more centred, balanced and calm. Your health will improve because there will be an obvious reduction in stress levels, anxiety and uncertainty. The skills are already within you; they are natural, ancient and as relevant today as they were thousands of years ago. Positive personal change through higher consciousness: a richer, more rewarding quality of life. Explains the relevance of ancient myths to the awakening to higher states of consciousness and enlivened experience of the world • Shows how higher consciousness can arise within each of us by following the guidance found in ancient myths • Reveals how myths influence our personal development without our awareness through their

influence on our core values and culture • Examines ancient Sumerian, Egyptian, Babylonian, and Hebrew myths, such as the Epic of Gilgamesh and the story of Osiris and Isis In this study of ancient Sumerian, Egyptian, Babylonian, and Hebrew myths, authors Lloyd M. Dickie and Paul R. Boudreau show that many classic myths contain instructions for awakening higher consciousness, allowing access to enlivened experience of the world and awareness of the divine within and around us. Inspired by the work of R. A. Schwaller de Lubicz, the authors deeply examine creation myths and well-known ancient myths from Mesopotamia and Egypt, such as the Epic of Gilgamesh and the story of Osiris and Isis. They reveal that these myths are not behavioral morality tales but actual delineations of how a higher order can arise within each of us. The authors explain how these stories teach us to distinguish the heaven within from the earth within us, to find the essential part of our being that provides a link with our higher powers. Spending more than a year onsite in Egypt to personally connect with the myths, the authors explain how ancient storytellers intentionally chose myths as a vehicle for teachings because story has a seed-like capacity to implant itself in the unconscious and influence development without the individual being aware of it. By crafting these sacred narratives, the ancient Sumerians and Egyptians provide tools to awaken to the presence of higher consciousness as well as a road map for the individual to come into conscious alignment with the perpetual unfolding of the universe. In her book *Exploring Inner Dimensions-Expression In The Present*, Jo Ann draws from her personal life experience as well as science and philosophy to guide the reader to connect with their inner dimension and higher self. In this book you will have the opportunity to learn and experience life-transforming meditations and visualizations. You will also practice writing and using affirmations and treatments to release old outdated energy patterns while, rewriting new patterns.
