Green Revolution/h Apr 16 2022 As will be made clear in the pages that follow, this book is based on

a field research project focused on rice-growing and undertaken in parts of North Arcot District in Tamil Nadu (India) and of Hambantota and Mon-eragala Districts, Sri Lanka. We use 'S.E. Sri Lanka' as shorthand for the whole of the latter study area, and 'Hambantota District' for the part of it which falls in that District. Except where the context requires otherwise, the present in our book refers to 1973-4; while 'Randam' and 'Paha-lagama' are fictitious names for real villages. The project was an inter-disciplinary one, involving workers qualified in economics, geography, hydrology, sociology, statistics and the study of the administration of development.

Proud Heritage of AGCO Tractors Jul 19 2022 With the acquisition of Deutz-Allis in 1990, the Allis-Gleaner Corporation (AGCO) became an industry powerhouse. AGCO manufactures and markets multiple product brands through multiple dealer networks, while maintaining the brand identity, quality, and innovative design of each of the product groups. Each chapter in this lavishly illustrated volume focuses on a different company, providing a brief company history before concentrating on the tractor line. No other book provides as much detail about so many AGCO-related tractors!
