Collection of printed documents from the Congregatio Immunitatis Ecclesiasticae concerning immunity, clerical privileges and discipline, finances, etc. in various cities and diocese, most within the Papal States, which were bound with Robbins MS 224. Most documents printed by the Camera Apostolica or the Typis de Comitibus. An engaging and accurate introduction to the Protestant Reformation, told in the words of those who led it, opposed it, and lived it. • Offers readers an understanding of the origins and development of the Protestant Reformation, and the main beliefs and positions of both Catholics and Protestants and of the different branches of Protestantism, e.g., Lutheranism, Calvinism, and Anabaptism • Includes more than 60 defining primary document selections • Features a detailed chronology and a useful general bibliography as well as bibliographies specific to individual documents for directed study • Presents a detailed general Introduction that puts the Reformation as a movement into historical context as well as introductions specific to each document selection that contextualize individual selections within the scope of the work Learning to worship is basic to becoming a Christian, says James White. Therefore, the teaching of Christian worship is also essential. White presents this excellent book, based on thirty-three years of teaching experience, as a resource for students and scholars who are engaged in studying and teaching the forms and meaning of Christian worship. White utilizes original documents and classical statements related to worship, and examines historically the application of liturgical practice in parish life. The book includes photographs, charts, and maps. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. A source book for students of the patristic period and a companion volume to "Creeds, Councils and Controversies" and "Doctrine and Practice in the Early Church" This updated edition incorporates vital documents that were not available when the original collection was compiled. This is one of a two-volume collection of texts and documents issued by the International Theological Commission (ITC), a body of theologians that advises the Vatican's Congregation for the Doctrine of the Faith. The texts and documents of the ITC address pressing theological issues, drawing upon theological experts from around the world who represent differing branches of theology yet who share a common commitment to authentically-Catholic theological reflection. Decades after the Holocaust, many assume that the churches in Germany resisted the Nazi regime. In fact, resistance was exceptional. Almost all Germans were Christians, and almost all Christians in Germany stood by, becoming intentionally or unintentionally complicit in Nazi policies and practices. In the early 1930s, a movement emerged within German Protestantism with the aim of

fully integrating Nazi ideology, German national identity, and Christian faith. The *Deutsche Christen*, or "German Christians," as they were called, interpreted the Christian faith and the role of the church in society in service of the Nazi revolution. They married centuries-old Christian anti-Judaism to the Nazis' racial antisemitism and sought to eradicate all traces of Judaism from Christianity. The German Christian publication program, designed to advance their ideology, included books and pamphlets, radio talks and speeches, as well as liturgies and retranslations of Scripture. For the first time in English, Mary M. Solberg presents a selection of representative documents of the German Christians. Her introduction to the volume sets the historical context of the movement and offers short introductions to each of the specific readings. The collection includes key responses critical of the German Christians by Karl Barth and Dietrich Bonhoeffer, among others. Book jacket. Traces the philosophy and use of musical instruments in the Christian church through documents drawn from various eras, countries, and traditions. Thousands of readers have found Fr. Mark Boyer's *The Liturgical Environment: What the Documents Say* to be a useful compendium of the church's law and guidelines on the liturgical environment. Rooted in the norm of active participation as the guiding principle for all liturgical celebration, each chapter considers the ecclesial documents that pertain to the particular objects under discussion, the theology found in the documents, and the praxis that flows from the theology. Now in its third edition, *The Liturgical Environment* has proven to be an essential resource for all those involved in planning, building, renovating, decorating, and worshiping in a sacred environment. This new edition is significantly expanded and revised to take into account important material from the Third Edition of the Roman Missal, the new General Instruction of the Roman Missal, Pope Benedict's apostolic exhortation *Sacramentum Caritatis*, and the Vatican's Instruction on the Eucharist, *Redemptionis Sacramentum*. Additional material has been added on celebrating the parish feast day, principles involved in decorating, and fakery in the liturgical environment. New information on the font and various baptismal scenarios for the Easter Vigil is also included. Three new chapters focus on celebrating marriages, funerals, and anointing the sick; on the concept of progressive solemnity in the liturgy; and on liturgical furniture for conference use when Mass is not celebrated in a church. Finally, new discussion questions present opportunities for reflection and discussion. "This second edition of texts from the FABC-Office of Social Communication comprises all documents originating from this office since 1996 up to the beginning of 2008"--Introduction. This thoroughly annotated document collection gives students and researchers an authoritative source for understanding the evolving political and legal relationship between church and state from colonial times to the present day. • Presents a balanced, fact-based examination of the myths and facts regarding church-state relations in the United States • Provides students and other readers with a one-stop collection of pertinent documents and court cases, the understanding of which is greatly enhanced by extensive but accessible annotations • Offers an extensive bibliography of books, periodicals, films, media, and websites Brings to the contemporary reader the major documents of the prolonged debate, revealing the ideas behind the conflict and relating them to the practical politics of the medieval world. Among the items recorded here are Henry IV's defiance of the papacy over the issue of lay investiture, the rise of the papacy to political power under "lawyer-pope" Innocent III, and Philip IV's humiliation of Boniface VIII. The author interprets these disputes and provides a clear narrative of church-state relations in the Middle Ages, explaining the issues that loomed so large before the men of the time. 354 pages of famous dogmatic Church pronouncements: The Athanasian Creed; Oath against Modernism; Interpretation of Sacred Scripture; Condemnation of the Modernists; Papal Infallibility; etc. Fully indexed; excellent reference! The Reformation era has long been seen as crucial in developing the institutions and society of the English-speaking peoples, and study of the Tudor and Stuart era is at the heart of most courses in English history. The influence of the Book of Common Prayer and the King James version of the Bible created the modern English language, but until the publication of Gerald Bray's *Documents of the English Reformation* there had been no collection of contemporary documents available to show how these momentous social and political changes took place. This comprehensive collection covers the period from 1526 to 1700 and contains many texts previously relatively inaccessible, along with others more widely known. The book also provides informative appendixes, including comparative tables of the different articles and confessions, showing their mutual relationships and dependence. With fifty-eight documents covering all the main Statutes, Injunctions and Orders, Prefaces to prayer books, Biblical translations and other relevant texts, this third edition of *Documents of the English R* An important part of the theologians' task is to make the church's dogmas meaningful to the faithful of their own time. The attitude with which a theologian should undertake this task of communicating a contemporary understanding of the faith is well described as one of creative fidelity. Two basic sources for Catholic theology are scripture and the documents of the Magisterium. Just as Catholic theologians must know how to distinguish among the various literary genres in the bible and how to interpret scriptural texts, they must also know how to determine the relative degree of authority exercised in the various documents issued by popes or councils and how to apply the principles of hermeneutics in interpreting them. This book offers guidelines that will help those interested in Catholic theology to make sound judgments about the authority and meaning of the documents in which the church has expressed its faith over the centuries. Making such judgments requires a knowledge of the correct level of response these documents call for

from the faithful and the ability to offer to today's faithful a contemporary understanding of their faith. The task of the interpreter is one of creative fidelity, requiring a delicate balance between being faithful to the original meaning of the text and creative in finding the concepts and terms that make it meaningful today.
